SAMSUNG ELECTRONICS AMERICA, INC., *Complainant*

v.

ORIENT OVERSEAS CONTAINER LINE LIMITED AND OOCL
(EUROPE) LIMITED., *Respondents and Third-Party
Complainants*

v.

SAMSUNG ELECTRONICS COMPANY, LTD., *Third-Party
Respondent.*

DOCKET NO. 24-17

Served: January 27, 2026

ORDER OF: Richard AMBROW, *Administrative Law Judge.*

**ORDER REDUCING TIME TO RESPOND TO RESPONDENT’S EMERGENCY MOTION TO STRIKE
AND FOR ADDITIONAL RELIEF**

On January 27, 2026, Orient Overseas Container Line Limited and OOCL (Europe) Limited (“OOCL”) filed Respondent’s Emergency Motion to Strike and for Additional Relief (“Motion to Strike”).

On January 23, 2026, Complainant Samsung Electronics America, Inc. (“SEA”), filed SEA’s Motion to Compel Discovery (“SEA’s MTC”). Though SEA’s MTC itself is 10 pages, it includes an appendix that is over 40 pages. OOCL argues in its Motion to Strike that SEA’s MTC should be stricken *in toto* for exceeding the page limit for non-dispositive motions of 10 pages (*see* 46 C.F.R. § 502.71(d)). OOCL also argues in its Motion to Strike that it should have additional time to respond to SEA’s MTC should I decide to not strike the motion to compel *in toto*. Finally, OOCL asks for more than 10 pages, and up to 55 pages, to reply to SEA’s MTC. OOCL represents that Complainant consents to allowing OOCL to have more than 10 pages to reply, but otherwise opposes the Motion to Strike.

In general, a party has seven days to respond to a non-dispositive motion. (46 C.F.R. § 502.71(d)). Here, in light of the time-sensitive nature of the Motion to Strike, and the fact that the Motion to Strike is relatively short (it is about four pages of text), I **HEREBY ORDER THAT** Complainant is to respond to the Motion to Strike no later than 5 p.m. Eastern time on January 28, 2026.
