Re: FMC Docket No. P3-18, Petition of the World
Shipping Council for An Exemption From Certain
Provisions of the Shipping Act of 1984, as
Amended, And For A Rulemaking Proceeding

Dear Ms. Dickon:

The members of the Caribbean Shipowners' Association, FMC Agreement No. 010979 (the "CSO") hereby submit their comments in support of the petition of the World Shipping Council ("WSC") in FMC Docket No. P3-18.¹

The CSO members believe the rationale for the requested exemption set forth in the WSC petition is meritorious. Accordingly, the CSO members support the petition in full, and urge the Commission to grant the petition and initiate the requested rulemaking at the earliest possible date.

¹ The members of the CSO are: Crowley Caribbean Services, LLC; Hybur Ltd.; King Ocean Services Limited; Seaboard Marine, Ltd.; and Tropical Shipping and Construction Company Limited. It should be noted that only one of the CSO members is a member of the World Shipping Council. Thus, these comments reflect the views of a portion of the carrier community that is not directly represented by the WSC.

Ms. Rachel E. Dickon

Favorable Commission consideration of the petition is warranted not only based on the arguments set forth in the petition, but also by other considerations. Specifically, the CSO members believe that granting the petition and revising the Commission's regulations as suggested therein would be entirely consistent with, and greatly further, the FMC's voluntary effort to provide regulatory reform consistent with Executive Order 13771, *Reducing Regulations and Controlling Regulatory Costs* and Executive Order 13777, *Enforcing the Regulatory Reform Agenda*.

Indeed, granting the petition and the relief described therein would advance the work of the FMC's Regulatory Reform Task Force ("RRTF") in the critical area of service contracts, which move a vast majority of the containerized freight in the foreign commerce of the United States, and are otherwise not scheduled to be considered by the RRTF until next year.

The Commission has used other proceedings (including petitions and rulemakings) as a vehicle to provide regulatory relief and further the work of the RRTF, such as the petition in FMC Docket No. P2-15 and the rulemaking in FMC Docket No. 16-04.

For the foregoing reasons, as well as the reasons set forth in the petition itself, the CSO members urge the Commission to grant the petition.

Respectfully,

Joe Espinosa,
Executive Director
Caribbean Shipowners Association
