Dear Mr. Creel,

I am writing in reference to the current request by Cosco North America to be able to match their competitors 24-hour rate filing as opposed to the 30-day restriction,

There have been several occasions where Cosco North America could not be considered for shipments based on this time delay, In order to provide the service to meet our customer's needs it is of great importance that our carrier is able to respond quickly.

I feel Cosco North America is a responsible carrier who should be able to respond to the marketplace in the same time period that their competition does.

Sincerely,

Betty Martin
