Dear Mr. Creel:

I am writing in reference to the current request by Cosco North America to be able to match their competitors 24-hour rate filing as opposed to the 30-day restriction.

There have been several occasions where Cosco North America could not be considered for shipments based on this time delay. In order to be competitive it is of great importance that our carrier is able to respond quickly.

I feel Cosco North America is a responsible carrier who should be able to respond to the marketplace in the same time period that their competition does.

Rulings such as the 30-day restriction are anti-competitive and another example of how federal regulation increases the costs of doing business, which in turn hinders our ability to compete in the global marketplace.

Very truly yours,

METRO INTERNATIONAL TRADING CORP.
