Federal Maritime Commission
Washington, D.C.

Attn: Harold Creel, Chairman

Dear Mr. Chairman:

By this letter, we wish to advise you that we strongly support COSCO's efforts to request that COSCO's 30 day tariff filing restriction be lifted. In this way, we believe that COSCO can compete more fairly with other ocean carriers. We have been using COSCO for many years, and have always found the shipping line to be a notably responsible carrier.

Because the current conditions of the freight market are always rapidly changing, it is our opinion that COSCO should be able to respond the same to the fast modifications in the marketplace as their competitors are permitted to do.

Sincerely,
MINCEPA INCORPORATED

Peter Young
President
