Mr. Harold J. Creel
FEDERAL MARITIME COMMISSION
800 N. Capital N.W.
Washington, D.C

Dear Mr. Creel,

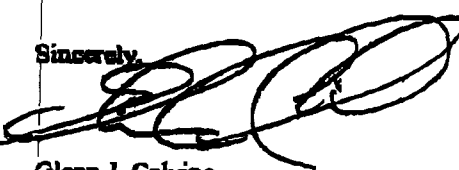

I write to you today regarding COSCO North America. It is my understanding, that COSCO North America has requested the ability to match the 24-hour rate filing process currently being offered to their major competitors. Instead, they are restricted to a 30 day waiting period.

We are a very big supporter of COSCO North America and use their services whenever possible. However on recent occasions, we have been forced to use their competitors services due to the time restrictions and delays caused by this. As a service provider, we can not afford to have our customers be forced to wait. It is important that our carrier respond immediately to our needs.

I believe that COSCO North America should be afforded the ability to compete on the same plateau as its competitors. We would like very much to continue to support them.

Thank you very much for your attention to this very serious matter.

Sincerely,

Glenn J. Calvino
General Manager
