Dear Mr. Chairman,

Global Transportation Services, Inc. wishes to advise you, that we support the efforts of "COSCO", to have the 30 day tariff filing restriction lifted so that they may compete more fairly with other ocean carriers.

Global has been using COSCO for several years, for both import and export cargo, and we find them to be a competent and responsible carrier. They have very knowledgeable personnel who are very familiar with the market in the United States and what needs to be done to increase the commerce in the United States.

There should always be a level playing field, and in today's changing market place, we feel that COSCO should be able to respond equally to the changing dynamics of the market place as you have permitted other carriers to do.

I have always supported "Free Trade", and this is part of the process.

Thanks you for your consideration.

Sincerely,

W. Guy Fox
Chairman of the Board
