Attn: Mr. Harold Creel, Chairman

Dear Mr. Chairman:

By this letter we wish to advise you that we support COSCO's efforts to have the 30 day tariff filing restriction lifted. In this way, COSCO will be able to compete more fairly with other ocean carriers. We have been using COSCO as an ocean carrier for several years and have found COSCO to be responsible and market conscious in terms of their freight rates.

Because the market conditions are rapidly changing for shipment of goods, a carrier should be able to react quickly in response to those changes. We feel that COSCO should be able to respond with the same promptness as other ocean carriers can.

Sincerely,

Kevin Small
