Petition P_-18	./.	Marek Sommer	(0421) 30 31 - 1562	05.09.2018

Dear Ms. Dickon,

We hereby submit our comments in support of the petition of Orient Overseas Container Line Limited and OOCL (Europe) Limited (collectively "OOCL") for an exemption from the requirements of 46 U.S.C. § 40703, which requires so-called controlled carriers to give 30 days notice of a reduction in their tariff rates.

We as a global forwarder with several own offices in the US move shipments on the Trans Atlantic and Trans Pacific. Import to and Export from the US is one of our internal Key Trade Lanes and we have significant increases volumewise.

We use a number of ocean carriers to transport our cargo, including OOCL.

To be competitive towards our customers we expect that a shipping line should react the same way – when the market situation change they should have the possibility to react the same way.

It would certainly allow OOCL to compete more effectively for a portion of our cargo.

By being able to reduce a tariff rate with immediate effect, OOCL can compete with other carriers for cargo and respond in timely manner to change in market conditions.

Granting OOCL this ability to compete on the same terms as other carriers will have no detrimental impact on commerce, but will be pro-competitive for the US market.

We kindly support OOCL's petition and hopefully the FMC will support the principle of equal opportunities in the shipping industry.

Sincerely

i.V. Marek Sommer
