Re: Petition P-18 by VOCC OOCL

Dear Ms. Dickon,

BLG LOGISTICS is a seaport-oriented logistics services provider with an international network. The company's more than 140-year history is a source of strength. Today, we have a presence in all the world's growth markets, with over 100 locations and offices in Europe, America, Africa and Asia. We offer our customers in industry and retail fully-integrated logistical system services. BLG LOGISTICS currently has around 18,500 employees.

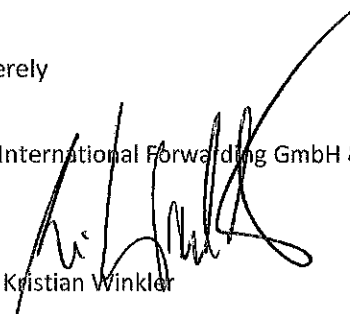

We hereby submit our comments in support of the petition of OOCL for an exemption from the controlled carrier status as per 46 U.S.C § 40703. We would like to encourage the FMC to grant an exemption as it did in the past to several other controlled carriers already as per Shipping Act. In our view the exemption will not result in a reduction of competition or be detrimental to commerce.

If granted petition we would continue allowing OOCL to compete for a portion of our cargo that we currently move into the United States via a number of ocean carriers, as then OOCL can reduce tariff levels by immediate effect. Only then the carrier can respond to the market in a timely manner as market conditions change constantly these days and quick adjustments are required more and more often.

The exemption will have a pro-competitive effect, therefore we urge the FMC to grant OOCL's petition.

Sincerely

BLG International Forwarding GmbH & Co. KG

ppa. Kristian Winkler
Director Oceanfreight
