**Re: Petition P_-18 by Orient Overseas Container Line Limited and
OOCL (Europe) Limited**

Dear Madam Secretary Dickon,

We hereby submit our comments in support of the petition of Orient Overseas Container Line Limited and OOCL (Europe) Limited (collectively, "OOCL") for an exemption from the requirements of 46 U.S.C. § 40703, which requires so-called controlled carriers to give 30 days' notice of a reduction in their tariff rates.

Under the Shipping Act, the FMC may grant a petition such as this if it finds that, the exemption will not result in a substantial reduction in competition or be detrimental to commerce. We understand that in recent years, the FMC has found these criteria to be satisfied by numerous petitions by controlled carriers seeking the same relief as OOCL. We believe these criteria are also satisfied by OOCL.

We move cargo to the United States and various destinations throughout the world, utilizing a number of ocean carriers to transport our cargo, including OOCL. Granting OOCL's petition will allow it to compete on the same terms and conditions as other carriers currently operating in the foreign commerce of the United States. It would certainly allow OOCL to compete more effectively for a portion of our cargo.

By being able to reduce a tariff rate with immediate effect, OOCL can compete with other carriers for cargo, and respond in a timely manner to changes in market conditions. Granting OOCL this ability to compete on the same terms as other carriers will have no detrimental impact on commerce, and will be pro-competitive.
