I. INTRODUCTION

Respondent HMM Co. Ltd. (“HMM”), by its undersigned attorneys, respectfully submits this response to the Motion to Compel (Doc. No. 52) (the “Motion”) of Complainant Samsung Electronics America, Inc. (“SEA”).

The relief requested in the Motion relies upon a variety of mischaracterizations which suggest, as discussed below, that SEA is more focused on obtaining a strategic advantage through the imposition of an adverse inference, rather than engage in reasonable discovery and resolution of its claims on the merits. Focusing on the facts, rather than SEA’s inflated rhetoric, the Motion should be denied for multiple reasons as set forth below.

First, SEA’s Motion is moot with respect to documents that HMM has already produced or that do not exist but which SEA has nevertheless included in its Motion. Second, SEA’s Motion is premature with respect to documents recently referred to at the depositions of HMM’s witnesses. These documents have only recently been formally requested by SEA - HMM has undertaken to search for those documents and, if they exist, agreed to produce them. Third, the Motion’s request for an order compelling production of detailed financial data, to which HMM has consistently objected on sound legal grounds, should be denied. This latter part of SEA’s Motion seeks to transform a dispute about shipment-specific charges into an order compelling documents about enterprise-level profitability and corporate financial reporting. Materials of this nature have been found in other proceedings to be irrelevant to the charge-specific reasonableness inquiry that is inherent in the analysis of an alleged violation of the Shipping Act.

All of these shortcomings warrant denial of SEA’s Motion.

II. BACKGROUND

The Presiding Officer is aware that this is a complex litigation. During the document phase of discovery, HMM produced a substantial volume of documents from the United States and

Korea. In order to comply with SEA's discovery requests, HMM collected five (5) terabytes of data from eighteen custodians in the United States and Korea (July 11, 2025 JSR, Doc. No. 31) and produced a substantial volume of documents totaling 1,141,254 pages (January 16, 2026 JSR, Doc. No. 42).

HMM served responses and objections to SEA's First Set of Interrogatories and Document Requests on June 23, 2025. Contrary to SEA's assertion, the objections HMM raised to many of those requests were proper; notably, SEA raised similar if not identical objections in response to HMM's discovery requests, so its complaints about the propriety of HMM's responses ring hollow. More to the point, and what SEA's Motion fails to acknowledge, is that HMM agreed to produce many categories of documents and information which it had initially objected to as irrelevant following discussions amongst counsel in order to avoid burdening the Presiding Officer with discovery disputes.

HMM has made twelve productions, in conjunction with its initial productions, in an attempt to resolve discovery disputes about requests that HMM considered to be objectionable:

- July 7, 2025; 7,727 documents; 93,902 pages
- July 23, 2025; 34,195 documents; 276,208 pages
- August 18, 2025; 21,978 documents; 114,019 pages
- September 9, 2025; 24,462 documents; 184,486 pages
- September 11, 2025; 3 documents; 3 pages
- October 29, 2025; 14 documents 27,063 pages
- November 11, 2025; 10,102 documents 26,385 pages
- November 25, 2025; 1 document, 8 pages
- December 18, 2025 (two productions):
 - o 31,486 documents 208,163 pages
 - o 559 documents 5,125 pages
- January 14, 2026; 14,857 documents 189,186 pages
- March 3, 2026; 5,565 documents 6,405 pages
- April 4, 2026; 28 documents 134 pages

In a further attempt to resolve SEA's claims of deficiency, HMM served detailed Amended and Supplemental responses to SEA's Interrogatories on September 12, 2025, and a Second Amended and Supplemental Response on March 23, 2026.

Finally, in addition to the conference calls held with SEA's counsel to resolve disputes, HMM issued the following detailed written responses to SEA's deficiency notices, copies of which were included in Exhibit A to SEA's Motion ("HMM Deficiency Responses"):

- September 12, 2025: HMM response to SEA's August 31, 2025 letter and September 9, 2025 email.
- October 24, 2025: HMM response to SEA's September 26, 2025 letter.
- December 23, 2025: HMM response to SEA's November 5, 2025 letter and email dated December 12, 2025.
- February 17, 2026: HMM response to SEA's emails dated February 4, 2026 and February 9, 2026.
- April 2, 2026: HMM response to SEA's letter dated March 9, 2026.

We now turn to the minutia of SEA's Motion, subjects which have been discussed in more detail in the HMM Deficiency Responses.

III. ARGUMENT

The documents which are the subject of SEA's Motion fall into three categories: (1) detailed financial records and data to which HMM has consistently objected on the grounds of relevance; (2) documents which HMM has produced; and (3) documents referenced at depositions, which SEA first formally requested by letter dated March 9, 2026 (to which HMM responded on April 2, 2026). These three categories of documents and the reasons why SEA's Motion should be denied are discussed below.

A. SEA's Demand For Financial Records Should Be Denied

SEA's Motion seeking an order compelling HMM to produce financial information related to demurrage and detention revenue is not relevant to the core issue in this case: whether the assessment of demurrage or detention charges relating to specific shipments constituted a violation

of the Shipping Act. Whereas SEA’s Motion characterizes the issue as “revenue and costs relating to D&D in the U.S.,” its discovery requests are far broader than necessary to explore that issue, which itself is not relevant. Furthermore, the implication in SEA’s Motion is that this material is relevant to the proceeding on the premise that if demurrage and detention contributed to profit realized by HMM, then the charges were unreasonable. This argument is fatally flawed.

SEA has the burden of proving that information and documents sought are relevant and that HMM’s productions are incomplete. *TZ SSE Buyer LLC v. COSCO Shipping Lines Co., LTD*, 2025 WL 1454511, at *4 (ALJ May 15, 2025); *Williams v. Ct. Servs. & Offender Supervision Agency*, No. 08-CV-1538 (RWR-AK), 2013 WL 12321547, at *2 (D.D.C. Mar. 25, 2013); *Alexander v. F.B.I.*, 186 F.R.D. 154, 159-60 (D.D.C. 1999). When evaluating a motion to compel, courts and agencies must consider the relevance of the information requested and “proportional[ity].” 7 Moore’s Fed. Practice – Civil § 37[2][a]; 46 C.F.R. § 502.141(e)(2)(ii).

Carrier profitability (or lack thereof) is simply not a factor to be considered in determining the reasonableness of a demurrage or detention charge. The reasonableness of each charge is to be determined on a case-by-case and fact-specific basis. 85 Fed. Reg. 29639 (May 18, 2020)(“Each section 41102(c) case would continue to be decided on its particular facts...”). Overall carrier profitability has no place in that analysis. A carrier’s overall financial performance sheds no light on the reasonableness of its detention and demurrage charges – one carrier could increase such charges dramatically and remain unprofitable while the exact opposite could be true for another carrier. Alternatively, two carriers could have identical charges for detention and demurrage but experience vastly different overall financial results based on revenues/expenses that are wholly unrelated to their detention and demurrage policies. Thus, such information simply is not probative to the question of the reasonableness of detention and demurrage charges.

The rationale for compelling production of these materials has been rejected by other Presiding Officers who have considered this issue. *See, e.g., Samsung Electronics America, Inc. v. ZIM Integrated Shipping Services Ltd.*, FMC Docket 22-30, Order Denying Motion to Compel Deposition (Chief ALJ Wirth June 9, 2023), in which SEA sought to depose the Respondent’s CFO in Haifa regarding its corporate financials. In denying SEA’s motion to compel production of the witness, the Presiding Officer stated:

“Moreover, it is not clear that corporate profits or requests to reduce “overdues,” especially with regard to overseas trends, would be relevant to this proceeding. Making a profit or increasing income, without more, would not violate the Shipping Act.” (Emphasis supplied).

For the same reason articulated in her resolution of the discovery dispute, the Presiding Officer rejected the detailed analysis of ZIM’s publicly available financial records by SEA’s expert, who argued that its revenues and profits were evidence of a Shipping Act violation:

“Moreover, SEA’s general financial analysis regarding ZIM’s revenue and net profit is not evidence that these practices were unreasonable.” *Samsung Electronics America, Inc. v. ZIM Integrated Shipping Services Ltd.*, FMC Docket 22-30, Initial Decision (Chief ALJ Wirth April 22, 2025)

Similarly, the complainant in *Visual Comfort & Co. v. COSCO Shipping Lines Co., Ltd.*, FMC Docket 24-01, Initial Decision (ALJ Ambrow April 28, 2025) sought financial information from the respondent. In denying the complainant’s motion to compel, the Presiding Officer ruled: “in light of Commission authority requiring evidence of a fact-specific nature, the additional discovery requests in the Second CMTC would not help Complainant, and are DENIED as moot.” (*Id.* at 31-32).

In an effort to resolve the issue about financial data amicably, and without the Presiding Officer’s intervention, HMM served its Second Amended and Supplemental Answers to SEA’s Interrogatories, which provided quarterly revenue from demurrage and detention charges for

during the 2020 – mid-2023 time period. This effort to resolve the issue was rejected by SEA.¹ In light of this position, HMM has declined to produce any further financial data which, as demonstrated above, has been uniformly found to be irrelevant to the issues in this case.

B. The Motion Is Moot With Respect to Documents Produced By HMM and Which HMM Has Confirmed Do Not Exist

The Motion, and SEA’s lengthy 16 page letter dated April 10, 2026, obviously forged to serve as a predicate for the Motion rather than serve as a good faith effort to resolve actual disputes, ignore productions of documents which HMM had made on March 3, 2026, and April 4, 2026. (See, POINT II, p. 3, *supra*). Many categories of documents which are the subject of the Motion have been produced, or HMM has confirmed that they do not exist:

- All relevant contracts between HMM and rail carriers²
- All relevant contracts between HMM and chassis providers (“IEPs”).³
- All relevant Chassis Payment Reports created by Tina Shin⁴
- Volume Forecast Reports shared with IEPs⁵
- All relevant real-time emails and reports provided by IEPs to HMM concerning chassis availability⁶
- All relevant reports relating to or assessing the underlying cause of delays on containers moving on door moves⁷
- All relevant contracts between HMM and truckers (House and CNTs), including but not limited to contracts evidenced in informal communications like emails⁸

¹ HMM notes that SEA has raised its concerns regarding the inadequacy of this information for the first time in its Motion. To the extent SEA wishes HMM to revise or focus that information more specifically, HMM was to date unaware of this concern but willing to discuss this with SEA.

² These documents were produced: HMM_1141077, Union Pacific contract from mid-2020 until 2025 and HMM_1141092, corresponding Union Pacific Master Transportation Agreement; and HMM_0940672, BNSF Rate Agreement.

³ These documents were produced: HMM_1141049, DCLI chassis agreement. DCLI was the primary supplier of chassis that HMM had contracted with. This notwithstanding, HMM’s April 2, 2026 letter agreed to undertake a reasonable search for additional materials that are responsive.

⁴ Any such materials located in the mailboxes of Ms. Shin, or her Director, Dan Compton, were produced.

⁵ These documents were produced: HMM_1140959 – HMM_1141072.

⁶ Any such materials located in the mailboxes of Ms. Shin, or her Director, Dan Compton, were produced.

⁷ In order to address this broad and vague request, in addition to others, HMM has searched its database for every document which contains the container number and/or bill of lading identified by SEA as part of its claim. All of these documents have been produced.

⁸ These documents with regard to CNTs do not exist in HMM’s files because, as SEA knows but refuses to admit, its own productions confirm that Samsung Electronics Co. Ltd, Samsung SDS Korea, Samsung Logitech and SEA were the parties which negotiated rates and made arrangements with CNTs without any participation by HMM and without copying HMM on the correspondence involving these negotiations. SEA_HMM-0540033; SEA_HMM-

- All reports or communications from the Container Service Supporting Team and Revenue Creation Part concerning various topics⁹

Accordingly, an order compelling production should not be issued when a party produced the documents in question or has conducted searches and confirmed that they do not exist.

C. The Motion Should Be Denied With Respect to Documents That HMM Has Agreed to Search for and, If They Exist, to Produce

On April 2, 2026, HMM’s letter responded to the penultimate March 9, 2026, deficiency demand transmitted by SEA. Approximately one week later, SEA issued its April 10, 2026 letter as a predicate for this Motion, which was filed two weeks later. Its artifice is clear: SEA’s motivation is not the production of relevant materials that will generate evidence that is probative to its allegations of a Shipping Act violation – the parties have been working to resolve the issues that have arisen between them in that regard. To the contrary, SEA’s hope is to point to the non-production of a handful of documents that the Presiding Officer has directed be produced and then seek an adverse inference to circumvent the proof that SEA failed to adduce in other litigations and which proved fatal to its claims.¹⁰

1. SEA’s Motion is Premature – To Grant It Would Violate Due Process

46 C.F.R. §502.150 (a)(1) states that “A party may file a motion pursuant to §502.69 for an order compelling compliance...with its discovery requests as provided in this subpart, if...a party fails to respond that inspection will be permitted, or fails to permit inspection, as requested under §502.146 of this subpart.” Of equal importance, §502.150 (a)(2)(i) requires “(a) certification

3185538; SEA_HMM-0355503; SEA_HMM-2109424; SEA_HMM-2659134. (Copies of these documents are appended to this Response as Exhibit A).

⁹ Despite its allegations, SEA has been in possession of hundreds of documents mentioning these groups for months.

¹⁰ *Samsung Electronics America, Inc. v. ZIM Integrated Shipping Services Ltd.*, FMC Docket 22-30, Initial Decision (Chief ALJ Wirth April 22, 2025); *Samsung Electronics America, Inc. v. SM Line Corporation*, FMC Docket 23-01, Initial Decision, (ALJ Hervey, May 28, 2025).

that the moving party has conferred in good faith or attempted to confer with the party failing to...respond to discovery requests as provided in this subpart in an effort to obtain compliance without the necessity of a motion” (emphasis supplied).

With the exception of the financial data discussed above, HMM has not refused to produce the additional documents which are the subject of SEA’s Motion. Of equal importance, SEA did not attempt to confer with HMM about the matters raised in its April 10, 2026, letter, which it thinly designed as the pillar of its Motion. Given HMM’s commitment in its April 2, 2026 letter to conduct additional searches for the categories of documents that SEA has demanded, particularly those first identified at depositions; and the fact that SEA did not confer with HMM regarding those categories of documents identified in its April 10, 2026, letter, SEA has failed to comply with the FMC rule requiring it to confer with HMM before filing its Motion. Significantly, in its April 10, 2026, letter, SEA raised issues it never previously identified nor conferred about with HMM, most notably the identification of potential custodians and witnesses, who were not previously known to HMM or SEA and who were not identified in either of the parties’ respective Initial Disclosures or written discovery responses.¹¹

SEA characterizes this development as an attempt by HMM to conceal knowledgeable witnesses and relevant documents. Aside from being untrue, SEA fails to mention however that it is subject to the same allegation by HMM because, during the course of depositions HMM discovered that SEA failed to identify eight employees¹² bearing the innocuous title of “dispatcher” but who were in reality high-level executives from Korea placed with SEA to provide managerial oversight with respect to logistics, warehousing and inbound operations and were

¹¹ SEA’s unilateral decision to proceed in filing its Motion here is especially egregious where SEA and HMM have discussed the need for further modifications to the existing schedule in the proceeding.

¹² Dan Chun, Zaeshin Chung, Changho Yu, S.J. Hong, Jason Chung (possibly an Americanized name for Zaeshin Chung), J.K. Bok, Brian Lee and Yongsung “Eric” Cheon.

central to decisions relating to the matters at issue in this proceeding. Only one such witness, B.K. Choi, was identified by SEA in its Disclosures. No materials from any of the other eight executive “dispatchers” that SEA failed to identify were produced. Rather than characterize this omission as a well-planned artifice by SEA and seek relief from the Presiding Officer (prematurely), HMM has instead called this shortcoming to SEA’s attention, demanded that it be corrected, and is allowing SEA time to do so. (*See*, April 23, 2026 deficiency letter, annexed as Exhibit B).

HMM understands that “(c)ourts do not demand perfection in responding to discovery requests, particularly when it comes to the production of electronically stored information.” *Adidas Am., Inc. v. Thom Browne, Inc.*, 742 F. Supp. 2d 352, 364 (S.D.N.Y. 2024). All that is required is “that a party conduct a ‘reasonable search’ for documents in response to a request, not that they boil the ocean to ensure every potentially responsive item is produced.” *Id.* (citation omitted). Yet, “boiling the ocean” is precisely what SEA is demanding that HMM do – in spite of its own defalcation with respect to the executive “dispatchers” it has failed to identify and whose documents it has failed to produce.

HMM’s letter dated April 2, 2026, committed to search for the remaining categories of documents that SEA recently demanded and, if they exist and are not privileged, to produce them. An order compelling HMM to do so is therefore entirely unnecessary and accordingly not appropriate. To the contrary, granting the Motion would violate HMM’s due process rights because SEA did not provide reasonable notice or sufficient and meaningful opportunity to HMM to address all of the issues in its April 10, 2026, letter. Notice of the basis for a motion to compel “must comport with the requirements of due process,” and when the “character of the dispute is complex” or “its resolution could have significant implications for other aspects of the case,” there

must be sufficient “time to give the matter the appropriate level of consideration.” 7 Moore’s Fed. Practice – Civil § 37.05[3].

This is a complex case, with complicated discovery regarding more than 96,000 detention and demurrage charges in dispute. The implicit goal of SEA’s Motion is to assign legal “responsibility” to HMM by obtaining an adverse inference based on the non-production of a handful of documents, rather than prove its case on the merits. Its employment of this strategy has not been limited to HMM:

- *Samsung Electronics America, Inc. v. COSCO, et al.* FMC Docket 24-16:
 - o SEA Motion to Compel, Doc. No. 95 – decision pending.
 - o SEA Second Motion to Compel, Doc. No. 112 – decision pending.
- *Samsung Electronics America, Inc. v. OOCL, et al.* FMC Docket 24-17:
 - o SEA Motion to Compel, Doc. No. 105 –denied, Doc. No. 120.
 - o SEA Motion for Sanctions, Doc. No. 131 – not fully submitted.
- *Samsung Electronics America, Inc. v. ZIM*, FMC Docket 22-30:
 - o SEA Motion to Compel and for Sanctions, Doc. No. 15 – denied, Doc. No. 21.
 - o SEA Motion to Compel, Doc. No. 24 – denied, Doc. No. 27.

SEA’s Motion is not in compliance with the FMC rules and is premature with respect to the remaining categories of documents, which HMM has agreed to search for, including documents in the mailboxes of the additional witnesses who were identified at depositions.

CONCLUSION

SEA’s Motion should be denied.

Respectfully submitted,

/s/Neil Quartaro

Dear Mr OH,

We have confirmed to our HQ that rate difference will cover by SEA (Samsung US)
Please make sure to send the work order to CNT and inform them with us we they can also be in same page.
**** Please note this change is only for this year, from 2022 all the rate should be in door to door and HMM should be cover to all CNT.**

Jaehwan CJN / Kristina

Please check below location with CNT and make sure they receive the work order from HMM and work with us for difference.

Thank you.

Dear Mr. Peter Kim,

We're advised from our HQ side that you want to settle balance amount of tariff with new CNT directly.

In this regard, please check and confirm whether you & new CNTs already mutually agreed the direct settlement process or not.

We'll set up the relevant working process once we get your confirmation.

Dear Mr Oh

Per our conversation, we/ SEA will pay the difference for the work order
Please check and send the work order to PBI and advise how to pay the difference.
Thank you.

Tai,

Can we expedite the CNT approval for Newnan, GA
We really need to approve because we have so many loads dwelling there
Thank you

Subject: Re: Sept Dynamic diversion Containers * additional 60 container check

Dear Samsung..
We are trying to cover the below loads for next week.

S358	Aaron's, Inc.	OBETZ	OH	2	Y
		Oklahoma City	OK	2	Y
		Plainfield	IN	2	Y
		PONTIAC	MI	3	Y
	ABC WAREHOUSE (HA)	GLENVIEW	IL	1	Y
	ABT ELECTRONICS	Croveport	OH	1	Y
	ALMO CORPORATION (HA)	Mequon	WI	16	Y
	Best Buy Purchasing LLC	BOLINGBROOK	IL	1	Y
				28	28
	S358 Total			28	28

We need a physical address of all locations and the rate approval as below:

Plainfield IN \$998+25% \$1,248
 Obetz OH \$1,942 +25% \$2,428
 Pontiac MI \$1,570 +25% \$1,963
 Groveport OH \$1,942 +25% \$2,428
 Mequon WI: \$ 875 + 25% \$1,094
 Oklahoma City OK \$4,100 + 25% \$5,125
 Glenview IL \$500 + 25% \$625

If we can add more, we will let you know early next week.

Please let us know if you would like us to proceed with this deersio project.

Thank you

Got it Jaehwan but just heads up these are not finished being set up for their location so they would not be able to Gr these.

We need to expedite getting BOTH UNIS locations set up for GR and outbound without this these would have to be shuffled to Romeoville first unloaded gr and then prepared for outbound we should prioritize UNIS locations to ship these and PBI to be the carrier if possible.

Dear Jasmine and Ted,
Can you support to deliver to those State by 9/30 and update it to us?

Alan,
Please make sure to communicate with UNIS to hold making GR.

Subject: RE: Sept Dynamic diversion Containers

Inbound team,

Please see BK's comments below and please update the column of 'Full (Loaded) or Unloaded', 'Action Plan' based on below **2), 3)**, and 'Trucker' by 2:30pm today.
Please contact me if you have any questions. Thank you.

Regarding container at Overflow (**UNIS - ALESSANDRO BLVD**, **AT UNIS Bolingbrook**, **AT UNIS warehouse**), the status must be checked (Full or unloading)

Action

- 1) Check exact status (unloading or full)
- 2) hold unloading of container in the list for diversion
- 3) full CNTR at overflow yard : dynamic diversion
Unloaded CNTR : GI from overflow (1:1 transloading CNTR : Trailer)

Subject: RE: Sept Dynamic diversion Containers

Hi, JH (cc WH manager)

Regarding container at Overflow (UNIS - ALESSANDRO BLVD, AT UNIS Bolingbrook, AT UNIS warehouse), the status must be checked (Full or unloading)

Action

- 1) Check exact status (unloading or full)
- 2) hold unloading of container in the list for diversion
- 3) full CNTR at overflow yard : dynamic diversion
Unloaded CNTR : GI from overflow (1:1 transloading CNTR : Trailer)

If you have any question on this action, let me know it.

Thanks.

From: Jaehwan Lee <jaehwanlee@sea.samsung.com>

Subject: Sept Dynamic diversion Containers

Peter,
Re-setting this email trail to focus on REF execution; VAC diversion plan has been scrapped for hub focus.
Attached is the confirmed re-routes for REF loads we've been collaborating over the past week. 225 loads / \$11-12M for Sept.

Re-cap of our Friday call between our teams:

- Clearing backlog and improving throughput is critical, lead into and during BF promo. Supply delays missing the Q4 peak sales windows will have implications leading into Q1 2022. The Re-route diversion initiative will continue after Sept action planning, with approx. 2Wks rhythm (WK2 planning a WK2 execution), with at least 2 round in Oct and evaluate Nov necessity.
 - o Next container avail check for WK39 - 9/27 for Mid Oct delivery & WK41 - 10/12 container avail for late Oct delivery
- Diversion process we established between teams

Thank you.

Joon Park | Director

Subject: RE: [LPS] Potential Dynamic diversion Containers heading to Hub

Hi Joon,

Per our meeting with PSI/SCM/inbound/DS team about Dynamic diversion, WALMART rejected the request about not having label.
So we need to drop the diversion option for WALMART VAC and need to GR them to warehouse ASAP so SCM /PSI team can drop the DO to ship out.

Can you also provide the dynamic diversion process from the call we had today?

Thank you.

Subject: RE: [LPS] Potential Dynamic diversion Containers heading to Hub

BK,

Noted, label exemption and RDD ADJ request was communicated and awaiting confirmation to proceed.

Peter,

Followup to our REF plan, current plan based on open orders. This view provides target destinations vs current hub inbound location and CNT count.
Let's connect in the AM as we expect orders to start arriving tomorrow from regionals to maximizing the volume

Destination		Re-route Location		Inbound Hub	CNT Count
Name	City	ST			
Aaron's, Inc.	AUBURNDALE	FL		\$366	6

Subject: RE: [LPS] Potential Dynamic diversion Containers heading to Hub

Hi Peter,

Appears that if we are delivering in FTL, floor loading is OK.

We will need confirmation that Wal-Mart will accept without GITN labels, and get the Oct RDDs pulled in.

Thank you.

Subject: RE: [LPS] Potential Dynamic diversion Containers heading to Hub

Hi Joon,

Per our conversation, can you check and advise if we can deliver without Pallet and Labels for this VAC orders.

Also Oct RDD, are they going to change the RDD to deliver in this month?

Hi Youngmee,

Dai was able to pull up all the shipping requirements in WMP for this sold to code. Major call out: specific pallets are require for LTL or you can floor load FTL and UCC labels are required.

Hi Peter,

I believe there are pallet and UCC label require by WMT.com. What sold to code are you using?

Dai,

Can you provide specific?

Hi Joon

This VAC shipment are coming on pallet?

Does WALMART can take shipment as is from factory ? no customer Shipping Labels or pallet?

Hi Sandy

Do we have Labels or pallet requirement to WALMART STORES, INC. (DOT COM) from HUB?

Subject: RE: [LPS] Potential Dynamic diversion Containers heading to Hub

Hi Jay,

This proposal, dynamic diversion, is good opportunity to reduce the lead time from the port/terminal and increase the sales this September.

LPS will be able to check the list of container for this action.
We will review the re-route option and will provide the list by Monday EOD, after checking container location & availability.

As you know containers location and status are keep changing.
To keep the opportunity, we need to have customer order and final destination by following day (no later than Wednesday).
At the same time, LPS team will check truck capacity from port/terminal. Customer destination should be within same region so we can find the carrier to re-route and increase diversion opportunity.

Thank you

Subject: [LPS] Potential Dynamic diversion Containers heading to Hub

LPS Team (Inbound team / Direct shipment team)

First of all, appreciate your continuous support and dedication all the time.
Briefly speaking, as all we are aware of the importance of this month sales revenue, we would like to explore and maximize dynamic diversion opportunities with Sales/customers' support.
Attached is the full list of containers containing just one SKU per container which is already arrived at US port, and we would like to proceed dynamic diversion with receiving new direct orders from customers if we are able to reroute/divert to customers.
Thus, I would like to ask your help to check the attached list of containers (1,578 containers) and advise us the feasibility of the rerouting/diverting to customers.
You may need to remove containers which are already en route to our WHs, and ensuring the transportation capacity so SCM could work with Sales/customers to receive the direct shipment POs.
Since all of the containers are already arrived at US port, we may need to terminate BLs at port and arrange our own transportations to deliver to customers.
Please excuse of the sudden request due to the urgent situation, and we need to receive the feedback no later than next Monday.

Please advise.

thanks

[List of containers exploring dynamic diversion]

Subject: RE: RE: RE: URGENT: RE: RE: RE: CMA Rate Issue with all the CNT*revised table 3/2 SDS / Logitech update need
Attachment: RE_RE_RE_Samsung - Harvest Rate Increase - Must have confirmation of approval from Samsung - Please advise URGENTLY - NY port to many door points.eml

Peter,

HQ gave a notice to SEA and GBM last year that

"In a principal, HQ approve Door contract only in case SSL run house trucker for inland drayage.
Otherwise, when sales subsidiary still want to run CNT, Ocean contract should be done
as CIP port(or Rail-ramp) instead.
But as it takes some time setting up inbound process, Door term would be accepted
only in case of all truck route, SSL CNT acceptance and Y2022.
Within this year, All Door contract carrying CNT Should be converted into CIP Port(or Rail-ramp) "

So HQ approved the below CMA contract carrying house trucker.
If SEA wanted to use CNT still, then we should discuss to change contract term.

以上, 감사합니다.

Title : RE: RE: URGENT: RE: RE: RE: CMA Rate Issue with all the CNT*revised table 3/2 SDS / Logitech update need

Tai Kim/ Jeongwoo Hah / SDS team,

We tried to get the update from your team from last year before rate set up, we/SEA confirmed to pay the difference to CNT for the shipment that shipped in 2021 and arrived in 2022

But not shipment from 2022, I see the e-mail on 2/10th "We got a mail from CMA USA as below CMA will deliver using their HOUSE TRUCKER"
All SEA HUB and DS shipment in 2022 will move by house trucker and SDS and HQ confirmed?

Dear Sungyl Yan / Injung Park / HQ team

Please check on this CMA rate issue and advise if HQ also approved to use house only for CMA
and also can you check if we have house only rate set up with any other SSL?

Subject: RE: RE: URGENT: RE: RE: CMA Rate Issue with all the CNT*revised table 3/2 SDS / Logitech update need

Dear Peter Kim,

CMA offered door rate based on house truck move.

In case of CMA, 2022 contract made as multipul yr with fixed rate, only floating BAF.

For this reason they can't predict any CNT rate fluctuation during multipul yr contract period, so all door rate via CMA is based on house.

This one already advised your side befor "Beside CMA didn't offer DOOR rate via CNT for 2022 bidding"

Plus during 2022 bidding period, sechq guideline was also all DOOR rate offered based on house truck not CNT.

So we asked all carriers to offer door rate based on house at the initial stage but mostly rejected due to truck capa issue except CMA.

Plz well be noted.

감사합니다. Thanx.

Importance: High

Tai Kim/SDS team

SEA_HMM-2109425

Did you check the new rate and get confirmation from CMA for all location?
Below is the CMA shipment from 2022 and they still giving the old rate to the trucker.
Please check with CMA to fix the issue immediately so trucker can receive the work orders.
Like we mentioned before, CMA is the only SSL that didn't approve the new rate to trucker.

Subject: RE: RE: CMA Rate Issue with all the CNT*revised table

Dear Mr.Kim,

This '2021 shipments so all loadings' done 2021. Beside CMA didn't offer DOOR rate via CNT for 2022 bidding.
(For 2021, CMA was one-yr contract carrier fixed rate during 2021 except BAF.)
Your CNT now asked increased rate for 2021 shipments not new 2022 one, so we asked CMA how much it pricy fr original rate but didn't get update yet.
We already shared table which Maria sent and escalated HQ side already.

And LOGITECH,

About KR shipments, if you hv any update fr CMA, plz share to SEA at your side.

감사합니다. Thanx.

B. rgds

Title : RE: RE: CMA Rate Issue with all the CNT*revised table

Tai Kim/SDS team

This should be fixed from HQ/SDS with CMA.
As we mentioned from last e-mail, CMA is the only SSL that didn't confirmed the rate with CNT.
Shipment are at the f.location with LFD, we can not keep waiting, who will pay for the demurrage now?
May we know the reason why CMA is the only one not confirming for the new rates when the rates were provided by CNT

Subject: RE: RE: CMA Rate Issue with all the CNT*revised table

Dear Maria,

Asked CMA to check list, and I've got below list fr CMA USA inbound team.
Already asked CMA RHQ how much CNT asked to increase rate to CMA side, but didn't get feedback yet. (Shared your CNT table for cross checking)
Fyi, related loads' all arranged under 2021 SC. So if CNT asked to change rate for 2022 contract then gap of charge shud be paid origin or your side separately.
Simply carrier won't observe any gap of charge about CNT rate increase matter.
Sent reminder again CMA side already. will get back to you once I get any update fr CMA.

Title : RE: CMA Rate Issue with all the CNT*revised table

Tai/ Tacha,

Can we have an update for the current situation with CMA rate issue?

We really need answer from your side because we have so many loads that arrived and will be arriving

Please advise

Thank you

Subject: RE: CMA Rate Issue with all the CNT
Importance: High

All,

Below is the rate information from 2 CNTs who are currently rejecting WOs from CMA due to rate issue.
Please be advised that some of the loads arrived at the port already and will be accruing or accruing demurrages already
We will provide the other from different CNT's if we received any additional rejections from our CNTs.

Per CNTs, they received rate changed confirmation from different SSLs except CMA.
Kindly review and process the rate issue ASAP to avoid delay and unnecessary cost and issue with our current and future loads with CMA.

Thank you

Subject: CMA Rate Issue with all the CNT

Hi Taeha,

It seems like all the carriers rate increase request are still pending from CMA?
But with the other SSLs, they accepted the rate increase from the CNTs already. What makes CMA to be different from other SSLs?
Please note if the CMA rate is not fix, the CNT's will be rejecting the WO and this is creating additional issue aside from the issues that we are experiencing now
In addition, this is going to cost demurrage.

If this rate issue is not fix, CMA is going to terminate this container as CY/CY again, which is more delay and problem

Please advise because CMA is the only one not updating the rates but for the rest of SSL, were updated already
Thank you

Joseph,

Samsung finally decided to add new CNT (PBI) for SAV/ATL ramp -> Buford lane.

==unquoted==

And if this' correct plz ask PBI to set rate same as AV rate (4month Before rate)

If PBI rate is pricey than AV we can't ask change HMM to change CNT.

감사합니다. Thanx.

Title : RE: RE: RE: FW: RE: RE: RE: RE: Samsung CNT rejection

Dear Maria,

Thanx for your updates.

Hopefully I can get your feedback as soonest possible.

Plus not only XPO, there're same issue with 'Southern Companies'.

You see below rate gap \$175/\$150 each fr AV rate.

New CNT: Southern Companies

JAX – POLK CITY = +\$175 (fr AV rate)

and AUBURNDALE = +\$150 (fr AV rate)

Plz renegotiate with Souther Companies to set same rate level of AV Logistics.

감사합니다. Thanx.

Title : RE: RE: FW: RE: RE: RE: RE: Samsung CNT rejection

Tai,

I just checked with XPO about the charges and haven't received their answer.

On my own opinion, it will be more practical for SAMSUNG to approve the additional drayage rate, than dealing with CY

This is going to cost so much money for SAMSUNG especially right now, with the current situation with the port/rail ramp, chassis and capacity issue of the truckers here.

Unfortunately, I am not in the right place to decide who will be paying for the additional cost since the contract negotiation is under with HQ though.

Once, I have the answer from XPO, I will let you know

Thank you

Title : RE: Regal operation

Good afternoon, Carlos

These following containers will be arriving on 6/14 at the port and Regal has been dispatched by MSC.
Could you please urgently check with MSC if they can switch work orders to a different house trucker for these following containers? And if possible, please also check when we need to notify to MSC by to switch.
Please note that this is a request just for checking, not switching it at this moment.

Subject: FW: RE: Regal operation

Hello **David**,

Today we found out the reduction in price comes from the negotiation between HQ and Shipping Lines for this 2nd semester 2020.

It means this should not affect current shipments we have in transit, since the new tariff will begin from July 1st vessel departures out of Mexico Ports.

Also, we don't have direct decision power over the Truckers negotiation, this is something between MSC and them. MSC told us off the record, they are looking for other trucker options in case they cannot get to an agreemet with Regal on regards of what HQ is asking.

Is there another Trucker option you would recommend we can give to MSC to start negotiations?

Thank you.

Katie

We can do the following:

SEA to Tacoma, WA \$285 + FSC
SEA to Seattle, WA \$285 + FSC

- Terminal Congestion: we will need 1 of the following options for 2020 due to issues with several Terminals in the Seattle and Tacoma harbors.
- o \$61/hr after 1 hr free for all Wait Time (Both Outgate & Ingate)
 - o OW
 - o \$60/Container for all containers 2020

Thank you

There are three containers at the port and they were expecting to be delivered this week.

Plant	Shipping Container No.	Status	ETA WK	TRUCKER	Terminal	BL No.

Title : RE: Regal operation

Removing a carrier

Hi, Ana

We were informed from Regal that MSC tried to cut the trucking rate by 20%. Please find the attached email and see this issue between Regal and MSC. I wanted to inform you because Regal is a house trucker MSC using for containers coming from SEMP. Since Regal is currently working with them on a rock bottom rate, chances are they won't be able to accept this rate cut and might drop out.

Thanks & Regards,

David Choi | Assistant Manager

David

We received this notice without warning. We negotiate all rates with Samsung, then I work with the Steamship Lines to get the rates in place on their side. If I read this correctly, there is no effective date nor any allowance to discuss before this is effective. I'm a bit caught off guard that we are trying to work with your team, but someone at Samsung is working in reverse with the SSLs. I need reassurance that we are hauling MSC containers at our negotiated rate of \$285 + FSC until we are settled on our current negotiations regarding the Drop & Pick model, and the rate increase. Can you please give me the reassurance that we will be at the original rate, so I can give that to Jim?

I couldn't reach Jim to discuss a reprieve until Tuesday, but I will get with him first thing when he walks in Monday. I need some sort of "good faith" gesture that Samsung is going to pay moving forward. Can you PLEASE help by getting the attached started to be paid in your system? These were properly completed, they should have been paid months ago.

Thank you

Nick Ballard

Subject: RE: Regal operation

Good Afternoon,
Nick should be sending a spreadsheet with all the container information requested earlier, but it's a manual build and took longer than expected in data extraction and entry. The two e-mail addresses below were set up to receive your batch invoices that have all the necessary information on them to have avoided this exercise, so I'd like to confirm the method we present invoices to Samsung is correct. Who has been getting these, and what has been done with them when they are presented and due? My understanding is we were directed by Samsung to send specifically to these addresses, and we are not getting any undeliverable notices.

Good morning, Nick

I was told from our accounting team this invoice hasn't been paid yet since the last year.
Please find the attached invoice and share with us the specific payment plan.

Thanks & Regards,

David Choi | Assistant Manager

Inbound | Samsung Electronics America, Inc.
Mobile: +1-469-625-8602 | Email s.choi2@sea.samsung.com

Subject: RE: Regal operation

Importance: High

Jaehwan

I appreciate that we can work together to correct what has happened and move forward. Although I don't have an answer for your first question below, we have definitely started making changes in operations and communication. Please read through the following responses. Let me know if you have any questions or suggestions.

1. What is your payment plan?
 - a. Waiting for Approval from Ownership.
2. What is your action plan to avoid similar happening?
 - a. Communication, More Oversight and Proactive Account Management

- i. Nick Ballard will "Account Manage" the Samsung Tacoma Deliveries per SOP Instructions from Jaehwan Lee.
1. Account Manage will include General Oversight of account operations (Acceptance of DO's, appointment scheduling, communication), KPI oversight (Deliveries on-time, storage, prepull and detention communication), and general overall Communication
- ii. Amber Dalton will "Account Manage" the Samsung Best Buy Deliveries per SOP instructions discussed with Maria Kristina Fernando.
- iii. We've hired 2 new Office Clerks to assist with Peak Season Volume Increases. Both Hires started Monday 7/29, both are Full Time and Both will continue through Peak & Non Peak.
- iv. Increased Reporting Functions
- v. Increased Technology Buildout
- vi. Increased Proactive Communication
 1. Terminal/Congestion Updates (Nick Ballard will provide)
 2. Appointment Conflicts
 3. Delays
 4. Issues/Preventions
3. Please make sure to re-visit the attached SOP.

Now that Regal is sole trucker of InBound team, means you are supposed to handle all the shipments in timely manner and without unnecessary cost.

- a. Understood and we are committed to the SOP provided. We will avoid unnecessary cost as a Top Priority.

4. Any suggestions?

- a. No suggestions, but I would like everyone to understand, I am in full agreeance that we need to provide more proactive communication across the board. But also, please remember that we are dealing with one of the most difficult Port locations in the country by having a North Harbor and a South Harbor. Having 2 Harbors splits our crew in a very difficult way, they are separated by roughly 29 miles, so roughly 1 hr of traffic during good times and 2-3 hrs of traffic at the worst of times. Depending upon our workload for a given day, we try our best to divide the drivers for LFD Containers, Empty Returns as well as avoiding congested terminals if we can to be more efficient. Dividing our Fleet into a North Crew and a South Crew would not be efficient for many reasons. We must continue to analyze and strive to efficiently dispatch as best we can. I can guarantee you that we are working in the best interest of Samsung so we can both grow together in the future. You are a Top Priority account for Regal Logistics and you will remain that way.
- b. I spoke with Zike about a "Dray Off" scenario earlier this year. I believe I might have an option that would help build a similar type model here in the PNW. I will do my best to get that model to you next week so that we can discuss further.

Thank you

Nick Ballard

Subject: RE: Regal operation

Hi Nick,

Per our conference call yesterday with you and Jesus, we discussed the situation and your action plan regarding all containers under demurrage.

- Regal is responsible for all the demurrages that Samsung has paid in order to pick up
- Regal will dispatch for all 6 loads first thing in the morning, 07/30/2019
- Regal needs to improve the communication and resolve issue with Samsung proactively

Attached you will find the earliest notice Samsung received from SSL that our loads were under demurrage after LFD, we then reached out to Regal to advise. As a side note, at that time, we didn't have any containers at Husky or T-18 but WUT and T-46.

Also, please update if you have you dispatched for the rest 6 loads?

Container No.	BL No.	Vessel or Air Name	W/O released	Status	LFD	Amount Samsung Paid through 07/29

Nick,

I saw your response to Janitsa from MSC, regarding the failure of picking up MEDU7597138.

We need to take actions proactively.

Please advise:

- How many loads have you picked up
- When do you need demurrages cleared through if no today and why

Container No.	BL No.	Vessel or Air Name	Status	LFD	Amount Samsung Paid	Pending demurrage 07/29
BSIU9265707	HDMUTHWB1134712	HYUNDAI FORWARD	Discharged 07/16 at port	7/22/2019	\$ 1,140.00	\$ 684.00

Nick,

The MSC container MEDU7597138 has been released per MSC and our brokerage.

SEA_HMM-3185552

All HMM containers were also cleared from all demurrage earlier.

Please confirm the receipt of this email and other emails I sent earlier for all status update.

AND, PLEASE TAKE ACTION FROM REGAL SIDE TO WORK THROUGH THIS, TOGETHER.

Thank you,

Zike/Jaehwan

MEDU7597138 -> Once I see T18 website showing cleared or I receive "clear" from MSC, I will send a driver.

Hyundai -> Tony (Who you met at the meeting in March) and I are working to help you with the Hyundai Containers. I don't have an update, but we are both trying to convince ownership that it is in our best interest to pay the demurrage. I will advise soon.

Chasing Released Demurrage Containers Same Day -> In order to guarantee having a driver to pull a container the same day as Demurrage has been paid, I need to know by 1100. If I know that a container is cleared by 1100, 99% of the time we can reposition a driver. "most" scenarios, if we know by 1300, we can still reposition a driver to pull a container, but it is MUCH more difficult. Anytime after 1300, I cannot promise anything because of Traffic. Please make a note that these timetables are REPOSITIONING drivers into the Terminals to get in line. Pulling the container is dependent upon Terminal Congestion at the time of arrival.

In the next week or 2, I will have a way to send out a blast email to every customer, which will allow us to send Daily updates about Congestion, closures and other details. This was in the works before, but not scheduled for completion until next year. will put pressure to have this ASAP, otherwise I will begin creating a new group to blast email.

I have other changes that we are discussing, but I won't have a plan or details until Monday. We have a management meeting at 1400 today where we will discuss improvements to our Trucking Division and I should know by Monday what will be accepted by Monday. This will include both operational improvements as well as Technology improvements.

I will provide updates throughout the morning as I receive them.

Thank you

Nick Ballard

Nick,

We are processing the additional 1 more day demurrage through today. Please arrange a driver immediately to pick up MEDU7597138.

Your action plan for all Hyundai loads is pending.

We need to at least get confirmation from you to standby for picking up them, otherwise the demurrage will be paid through Monday instead of today.

Thanks,

Hi Nick,
I was reported those containers are missing GR for your internal matter in this week.
I ask you deliver the below loads to the WH by tomorrow. Please take care of those urgently.

It will be also appreciated for you to explain how's it going and how's your action plan by today.

Counsel for Samsung Electronics America, Inc.
Holland & Knight LLP
787 Seventh Avenue
New York, New York 10019

Attn.: Chris Nolan, Esq.

**Re: FMC Docket No. 24-23 –Samsung Electronics America, Inc. (“SEA”) v.
HMM Co. Ltd. (“HMM”) Discovery Deficiency Notice**

Counsel:

We write on behalf of HMM regarding serious deficiencies in SEA’s document production and initial disclosures—deficiencies that have become apparent only through recent depositions of SEA witnesses.

As explained below, sworn testimony from Stephen Szabo, Brian Locasto, and Michael Rapske establishes that individuals identified within SEA as “dispatchers” played a central operational and escalation role in the movement, diversion, prioritization, and financial handling of inbound cargo during the Relevant Period. Despite this, SEA did not identify dispatchers in its Initial Disclosures, nor has it produced custodial ESI from any dispatcher in-boxes or other sources.

We are concerned that this omission deprives HMM of crucial evidence required to defend against SEA’s claims and litigate its own counter-claims. The lack of production of documents from these dispatchers must be remedied promptly to permit HMM to complete sufficient discovery in line with the ALJ’s most recent scheduling order. Moreover, it has become apparent that additional depositions of these dispatchers may be required as it appears they all have relevant factual and policy information related not only to HMM’s defenses but also its counter-claims.

I. Dispatchers Were Identified as Key Operational Actors

1. A. Stephen Szabo Deposition

Mr. Szabo testified that dispatchers functioned as liaisons between SEA and Samsung's headquarters and that they were involved in escalation, approvals, and coordination of logistics issues—including diversions and delivery failures impacting customers and warehouses.

Specifically:

- Mr. Szabo identified Dan Chun as a “dispatcher,” explaining that dispatchers functioned as liaisons between SEA supply chain operations and headquarters and were involved when matters required elevation beyond routine operational handling (Szabo Dep. at pp. 73–74).

This testimony places dispatchers squarely within the decision-making chain for events central to SEA's claims and HMM's counter-claims.

2. B. Brian Locasto Deposition

Mr. Locasto's testimony establishes that dispatchers exercised financial approval authority and operational control directly relevant to demurrage, detention, pre-pull, and storage decisions.

Notably:

- Mr. Locasto testified that dispatchers had authority to approve pre-pull and storage charges, including decisions undertaken to avoid demurrage exposure (Locasto Dep. at pp. 80–81).
- Mr. Locasto identified Zaeshin Chung, Byung Kweon Choi (BK), Changho Yu, and SJ Hong as dispatchers who could approve such actions and intervene when normal processes were bypassed or time-sensitive escalation was required (Locasto Dep. at pp. 17, 22–23, 80–81, 151).
- Mr. Locasto further testified that dispatchers were the conduit for strategy, execution support, and escalation across logistics and supply chain functions, including coordination with transportation and warehouse operations (Locasto Dep. at pp. 22–24).

This testimony establishes that dispatchers possess material factual knowledge concerning why containers were pre-pulled, stored, delayed, and/or diverted, which are all issues at the heart of SEA's allegations.

3. C. Michael Rapske Deposition (Part I)

Mr. Rapske similarly testified that dispatchers functioned as local executives from headquarters in Korea, providing managerial oversight and approval across logistics, warehousing, and inbound operations.

In particular:

- Mr. Rapske identified additional dispatchers from Korea, including Jason Chung, J.K. Bok, Brian Lee, Changho Yu, and Yongsung “Eric” Cheon, as acting as local executives providing SEA’s logistics leadership (Rapske Dep. at pp. 35–36, 122-125, 143-144, 163).
- He testified that dispatchers were involved in approvals relating to transportation providers, warehousing decisions, and transportation network changes, including escalation decisions during periods of congestion (Rapske Dep. at pp. 24–25, 35–38).
- Mr. Rapske further testified that SEA personnel relied upon dispatchers for interpretation and communication of terms, expectations, and approvals flowing from headquarters, including matters affecting container handling and prioritization (Rapske Dep. at pp. 37–38, 55–57).

Based on the testimony from multiple SEA witnesses, it is clear that these dispatchers are central actors, not peripheral participants.

II. The Dispatchers’ Evidence Should Have Been Produced In Response to HMM’s Discovery Requests

The testimony above confirms that dispatchers are custodians of documents, including but not limited to ESI, responsive to at least the following previously served requests:

- **First Discovery Requests**
 - Interrogatory No. 3, 4, 8, and 9 (causation of delays; alleged failures in container processing and handling)
 - Requests for Production Nos. 4, 5, 9, 10, and 11 (communications regarding delivery failures, container delays, mitigation efforts, and threatened consequences)
- **Second Discovery Requests**
 - Interrogatory Nos. 13–19 (identification of persons responsible for delivery acceptance, appointment setting, prioritization, and delay causation)
 - Requests for Production Nos. 14–18 (internal communications and correspondence reflecting delivery constraints, warehouse capacity, and acceptance conditions)

Given the dispatchers' now-documented roles in approvals, diversion requests, pre-pull decisions, escalation communications, and coordination with warehouses and carriers, their communications are plainly within the scope of HMM's existing discovery requests.

Against this record, HMM is surprised that SEA did not identify dispatchers as individuals with discoverable or relevant knowledge in its initial disclosures (excepting BK Choi) and has not produced ESI from dispatcher custodians (excepting BK Choi), including email, messaging platforms, and internal communications.

At a minimum, SEA was obligated to disclose and preserve materials from individuals who approved or escalated pre-pull and storage decisions, acted as headquarters liaisons for logistics, and/or participated in decisions allegedly giving rise to demurrage, detention, and container delays.

Accordingly, HMM demands that SEA:

1. Promptly identify all individuals who served as "dispatchers" during the Relevant Period, including titles, reporting lines, and dates of service;
2. Confirm the preservation and production of ESI for each dispatcher named above or working in relevant areas at SEA during the Relevant Period, including email accounts, messaging platforms, shared drives, and documents;
3. Supplement SEA's interrogatory responses and document productions to include dispatcher materials responsive to HMM's First and Second Discovery Requests.

Please promptly advise whether and how SEA intends to cure these deficiencies. HMM remains prepared to meet and confer promptly but reserves all rights should motion practice become necessary.

Sincerely,

Neil A. Quartaro
