

BEFORE THE
FEDERAL MARITIME COMMISSION

FMC DOCKET NO. 21-09

HAPAG-LLOYD, A.G. and HAPAG-LLOYD (AMERICA) LLC
POSSIBLE VIOLATIONS OF 46 U.S.C. § 41102(c)

MOTION FOR LEAVE TO INTERVENE

COMES NOW, Orange Avenue Express, Inc. ("OAE") and hereby submits its Motion for Leave to Intervene pursuant to 46 CFR §§ 502.68(c)(1) and (c)(2)(i).

The Federal Maritime Commission ("Commission") issued its Order of Investigation and Hearing against Hapag-Lloyd AG and Hapag-Lloyd (America) LLC (collectively "Hapag-Lloyd") for possible violations of 46 USC § 41102(c) in Docket No. 21-09.

The Order of Investigation and Hearing noted that the Commission had received information indicating that Hapag-Lloyd may be in violation of 46 USC § 41102(c) with respect to detention charges relating to empty container returns.

Specifically, the Commission decided that an adjudicatory proceeding was required to determine if Hapag-Lloyd was in violation of 46 USC § 41102(c) by its practice of assessing detention charges when;

- A. Hapag-Lloyd failed to provide any equipment return locations, and/or
- B. Hapag-Lloyd did provide an equipment return location, but appointments were unavailable for equipment return during the allocated free time, and/or

C. When charges were being disputed and Hapag-Lloyd was shown evidence that no such appointments were available during free time, Hapag-Lloyd failed to waive detention charges.

OAE's complainant against Hapag-Lloyd¹ alleges similar violations in Docket No. 21-10. OAE seeks leave to intervene under 46 CFR §502.68(c)(1) in that, there are overlapping claims being made against Hapag-Lloyd for violation of 46 U.S.C. §41102(c) based on similar factual allegations (see Complaint², Docket 21-10, ¶¶ 17-25, and 40). As such a determination in Docket 21-09 as to Hapag-Lloyd's liability may partially impact the ability of OAE to recover in Docket 21-10.

OAE seeks leave to intervene under 46 CFR §502.68(c)(2)(i) in that its participation can assist with the adjudication of Docket 21-09. OAE's intervention in this action, will assist the BOE in demonstrating that Hapag-Lloyd's conduct is not limited to the 11 containers which are mentioned in Exhibit A to the Notice of Investigation, but rather is part of wide-spread practices and conduct by Hapag-Lloyd in the ports of Los Angeles and Long Beach and potentially elsewhere. Such evidence would be directly relevant to Hapag-Lloyd's Third and Fourth Affirmative Defenses plead in Docket 21-09:

“3. Any inability to return empty containers within free time was due in whole or in part to the acts and/or omissions of the motor carrier and/or the cargo interest(s).

4. Respondents' conduct was reasonable in light of the totality of the circumstances.”
OAE's experiences will not only assist with the determination that Hapag-Lloyd's actions were

¹ Hapag Lloyd, AG is the sole named respondent in Docket 21-10. However OAE has alleged that Hapag Lloyd, AG operates through its agent Hapag Lloyd (America) LLC.

² A copy of the Complaint filed in Docket 21-10 is attached hereto as Exhibit A for ease of review.

unreasonable but also occurred on a normal, customary, and continuous basis and thus were a regulation or practice as contemplated by 46 U.S.C. §41102(c) beyond the 11 containers noted in Exhibit A to the Notice of Investigation. OAE's participation in this matter would allow the development of a sound and complete record to establish the unlawful practices and procedures of Hapag-Lloyd.

OAE requests participation in discovery and believes discovery conducted in Docket No. 21-09 to the extent that the issues overlap with the contentions in Docket No. 21-10 will streamline both actions. For example it is alleged Hapag-Lloyd would publish terminal availability and thereafter the designated terminal would have to be consulted for appointment availability. As both Dockets concern conduct at the Ports of Los Angeles and Long Beach, the information regarding empty return availability and terminal appointments need only be produced once for use in both cases.

OAE does not intend to seek affirmative relief in Docket No. 21-09 (except to the extent any cease and desist order issued may also impact ongoing matters between OAE and Hapag-Lloyd), in that it is already seeking affirmative relief in Docket No. 21-10. Provided, however, OAE either independently or through the BOE would like the opportunity to present evidence concerning Hapag-Lloyd's violations of the Act.

MOTION FOR LEAVE TO INTERVENE
EXHIBIT A

BEFORE THE
FEDERAL MARITIME COMMISSION

FMC DOCKET NO. 21-10

ORANGE AVENUE EXPRESS, INC.

Complainant,

v.

HAPAG LLOYD AG

Respondent.

VERIFIED COMPLAINT

Comes now, Complainant Orange Avenue Express, Inc. (“Complainant” or “OAE”), by its undersigned attorneys, and files this verified Complaint against Respondents, Hapag Lloyd, AG (“Respondent” or “Hapag”) alleging violations of the Shipping Act of 1984, as amended, 46 U.S.C. §40101, et. seq. (the “Act”) as follows:

I. THE COMPLAINANT

1. Complainant, Orange Avenue Express, Inc. is a California corporation that is operating as a licensed motor carrier with a place of business at 2300 W. Willow St., Long Beach, California 90810. Complainant may be contacted through counsel, Stephen M. Uthoff at suthoff@uthofflaw.com.

II. THE RESPONDENT

2. Respondent, Hapag Lloyd, AG is a corporation organized under laws of Germany. Hapag’s corporate headquarters is located at Ballindamm 25, D-20095, Hamburg, Germany.

3. Hapag does business in the United States through its agent, Hapag Lloyd (America) LLC, (“Hapag America”) a Delaware Limited Liability Company, with its principal place of business at 399 Hoes Lane, Piscataway, New Jersey, 08854. Hapag America is also qualified to do business in the state of California with an office at 555 W. Ocean Blvd., Suite 300, Long Beach, CA 90802.

4. At all times pertinent to this complaint, Hapag was and is an ocean common carrier as defined by the act at 46 USC §§40102(7) and (18) and is identified as Federal Maritime Commission (the “Commission”) organization number 005980.

5. Complainant understands the relevant email address for Hapag is c/o Jeff.Blaschko@hlag.com. Mr. Blaschko is the manager of terminal operations for Hapag in Long Beach, CA. Other publicly available email addresses are Uffe Ostergaard, President of Hapag America Uffe.Ostergaard@hlag.com and Thomas Engel, Sr. VP of Operations for Hapag America, Thomas.Engel@hlag.com.

III. JURISDICTION AND LEGAL AUTHORITY

6. The Commission has subject matter jurisdiction over this Complaint pursuant to the Act, 46 USC §40101 *et. seq.*

7. The Commission has personal jurisdiction over Hapag as an ocean common carrier as contemplated by the Act as defined in 46 USC §§40102(7) and (18).

8. This Complaint seeks reparations, equitable and other relief for alleged violations of 46 USC §41102(c) by Respondent’s failure to establish, observe, and enforce just and reasonable practices related to receiving, handling, storing and delivering property. Complainant also alleges certain conduct by Respondent to be an unreasonable preference or practice per 46 U.S.C. §41104(a)(3) and (8) and are independent violations of the Act.

IV. FACTUAL ALLEGATIONS

9. OAE is a motor carrier with operations at Long Beach and Oakland, California.

10. As part of its operations in Long Beach, California OAE will dray full and empty containers to and from various terminals located in the Ports of Los Angeles and Long Beach.

11. As part of its Long Beach drayage operations, OAE is routinely required to pick up full imported 40 foot refrigerated¹ containers from and return empty refer containers to Hapag designated terminal(s). Hapag uses several terminals in the Long Beach/Los Angeles port complex to handle its cargo and empties, such as Trapac Terminal, Total Terminals, Inc., Yusen Terminals, Inc., International Transportation Service, Inc., and SSA Terminal at Pier A.

12. OAE and Hapag are parties to the Uniform Intermodal Interchange and Facilities Access Agreement (“UIIA”). Hapag participates in the UIIA through Hapag America.²

13. Under the UIIA addendum applicable to Hapag, Hapag allows two days free time to return empty refer containers after OAE has pulled full loads from Hapag’s terminals. Thereafter, per the Hapag Addendum to the UIIA, Hapag charges \$400.00 per day detention for each day the empty container is not returned to Hapag beyond the free time allowed.

14. Hapag may have further agreements directly with shippers, consignees, beneficial cargo owners or other parties which extend the amount of free time allowed or that may change the amount of detention charged on a daily basis. OAE may benefit from such agreements.

15. The cargo picked up from Hapag by OAE is generally considered overweight and must be hauled pursuant to permits issued by local and state jurisdictions on specialized chassis owned or controlled by OAE.

¹ Commonly referred to as a “refer(s)” or “refer container”.

² “Ocean carrier practices, whether incorporated in the UIIA, or not, are within the Commission's purview under section 41102(c).” Final Rule, 85 FR at 29649

16. In relation to the complaint herein, from on or about mid-August 2021 OAE in its ordinary course of business, pulled full 40' refer containers from Hapag terminals to its yard in Long Beach, California which is shared by Three Rivers Trucking, Inc ("TRT") which operates a transload facility at the same location of OAE and Three Harbors Services, Inc. ("THS") which operates an equipment depot at that location. Ordinarily, upon arrival, since the containers are overweight, the Hapag containers are devanned and transloaded in whole or in part by TRT into other conveyances for delivery to OAE customers. As such the empty Hapag empty containers are routinely available for return to Hapag within the 2 days free time as requested under the UIIA. OAE in the regular course would attempt to return the empty refer containers to Hapag within two days from the date the containers had been interchanged out full from Hapag terminals.³

17. Initially, Hapag, on a daily basis would post available location(s) for return of the empty refer containers. However, as the lack of locations to return empty containers became common place, for Los Angeles and Long Beach only, Hapag instituted a system whereby motor carriers such as OAE would have to send an email to Hapag in order to get a daily report of empty return location availability. A sample of an email requesting daily empty return locations and the response is attached as Exhibit A.

18. The Hapag email address was intended to be an "auto-reply" type of email, where upon sending a request to Hapag (at LGBEMPTIES@hlag.com), a response would be automatically generated. However for unknown reasons, Hapag deactivated the automated response. After deactivating the automated response, Hapag would manually respond to the email inquiry at its discretion or not at all.

³ Exhibit C attached hereto, in addition to showing the detention charged by Hapag, also shows how OAE in early August consistently returned containers to Hapag during allowed free time.

19. Hapag would often reply that no locations were accepting empty refer containers or that empty returns were only allowed on a “dual” transaction basis. A dual transaction requires the motor carrier to pick up a full container at the same time it dropped off an empty container. If a motor carrier does not have a corresponding full pick up at the terminal it may not drop off the empty. In its emailed matrix, Hapag declared detention would not be waived if a dual transaction location was available.

20. If Hapag actually posted or emailed availability of an empty return location, before an empty container could be returned, the motor carrier must then make an appointment with the designated terminal. When OAE attempted to secure appointments to return the empty refer containers, OAE would often be notified that all appointments had been filled or that the terminal would not accept empty containers, contrary to Hapag’s designation. OAE would attempt to notify Hapag that notwithstanding its identification of a location that would accept empties, no appointments were available. When Hapag was notified that no appointments were available, Hapag would reply that it had no control over the terminal appointment system. Further after repeated requests, Hapag failed to provide an overall solution to the daily refusal to accept empty refer container returns or lack of appointments. A sample of the notice, lack of appointment and response by Hapag is attached as Exhibit B.

21. Whenever possible, OAE took advantage of available regular or “dual” gate appointments. However, because of the continuous lack of Hapag’s empty return locations, empty refer containers began accumulating at the OAE yard. Since the full containers were originally pulled as overweight containers on specialized tri-axle chassis, many empties remained on the specialized OAE owned chassis for lengthy periods of time.

22. At one point OAE's operations were threatened to be shut down because of the lack of available specialized chassis for new full loads, since the specialized chassis were still occupied by Hapag empty refer containers. Because there was no indication by Hapag on when the empties were going to be accepted, OAE was forced to seek the assistance of THS to remove all Hapag refer containers from the specialized chassis and stack the empty Hapag containers in the yard. At one point, OAE had approximately 70 empty Hapag refer containers awaiting return authorization and availability.

23. Although stacking the containers was an operational necessity, it created other issues and expense for OAE. Once the empties were taken off of chassis and stacked, when an empty location and appointment became available, OAE would have to secure a chassis, and incur extra time, labor and expense in order to re-mount the empty to a chassis to have it delivered to a terminal.

24. Despite its best efforts to return empty containers because of the lack of available appointments, dual transactions or the volume of empty, decked refer containers at its facility caused by Hapag's past actions, it was impossible to return all empty containers at once.

25. Hapag would charge detention in an unreasonable, arbitrary and capricious manner. To illustrate: 1) Hapag would issue its daily empty return availability; 2) if no empty return locations were available, Hapag waived detention charges for that day only; 3) if any locations were identified for empty returns (either dual or regular) Hapag advised it will not waive detention charges regardless of whether a dual transaction existed or if appointments were available at the terminal; 4) OAE would then determine if appointments are actually available for the returns; 5) if appointments were available OAE would return empties to the extent it reasonably could, given that the containers were no longer on chassis or if dual appointments were feasible; 6) in addition

to the lack of dual transactions or lack of appointments, OAE became potentially responsible for detention on any containers in the stack at its yard (caused by Hapag's prior refusal to accept empties) that could not be returned if operationally it was impossible to return the containers. Thus Hapag would still charge daily detention at \$400 per day, per container even if the empty, in reality, could not be returned through the actions of Hapag or its designated terminals. To be clear, as stated in its daily empty availability matrix, Hapag has made it clear that detention charges will not be waived for any days were they have designated for dual or regular empty transactions even if no appointments were available at the terminal or if OAE lacked the ability to take advantage of a dual appointment (see Exhibits A and B).

26. Working diligently with the availability allowed by Hapag, OAE continues to return the empties it had and has on hand, but in the meantime, OAE has received substantial detention invoices from Hapag (see Exhibit C) which have been disputed without success. Also OAE anticipates this will be a continuing issue as full loads are scheduled to arrive for OAE customers and Hapag has not solved its lack of empty return availability contrary to its duty to provide adequate ocean terminal space and throughput.

27. Apart from monitoring available slots to return empties through publicly available information, OAE also sent further inquiries directly to Hapag America seeking a solution to return empties to Hapag without result.

28. Attached as Exhibit C is a list of empty refer containers that were refused return locations by Hapag, or were otherwise forced to be stored at OAE as of November 1, 2021. Exhibit C lists the date the full container was interchanged out of the Hapag designated terminal, the last free day and when the container was ultimately accepted by Hapag or if it remains in OAE possession. Exhibit C also includes the amount of unreasonable detention that has been charged

by Hapag on those containers. OAE contends that it would have been able to return containers to Hapag during free time but for Hapag and its terminal's actions. To date all disputes by OAE have been denied by Hapag.

29. The number of empty containers in the possession of OAE fluctuates. For example, as of November 1, 2021, OAE was still in possession of 17 Hapag empty refer containers. That number will be dynamic during the course of this proceeding as OAE pulls full containers for its customers and returns empty containers to Hapag.

30. Instead of adequately allowing for opportunities to return empty refer containers, Hapag involuntarily forced OAE to act as a storage facility for Hapag empty containers without compensation. Such actions not only should have incurred storage and related charges for the containers for Hapag's account, it also caused OAE to assess storage, chassis use charges, flip charges (to remove and then re-mount Hapag containers onto chassis) to its customers, and interfered with OAE and its customers since OAE was in the uncomfortable position of notifying its customers it could no longer pull full loads of Hapag cargo because empties could not be returned. Hapag's actions also caused OAE to reject business because of the lack of space and available equipment being used by Hapag empty containers and the interference with the overall operations of OAE, since, *inter alia*, it unreasonably has to be "on call" to be ready if Hapag suddenly agrees to accept empty containers. Investigation and discovery is continuing as to further damages caused and ongoing damages being suffered by OAE.

31. As more evidence of its intentional custom and practice of refusing empty returns, Hapag's refusal to accept empty refer containers is not limited to the Ports of Long Beach and Los Angeles. Blanket refusals to accept empty refer containers for at least one of its designated terminals in the Port of Oakland as well has also been publicized (see Exhibit D).

32. Without any relief in sight, on October 4, 2021, OAE, through counsel, send Hapag a demand for payment of container storage and chassis usage charges and a formal request to cease and desist its violations of the Act. To date OAE has not received a response.

33. To exacerbate this problem, when an empty is allowed to be terminated, turn times at Hapag terminals have exponentially increased. Whereas a turn would normally take 1-2 hours, it now can take up to 6 hours round trip to return a single empty container.

34. OAE has and continues to dispute the detention charges with Hapag. As of the date of this Complaint, Hapag has issued detention invoices in the minimum amount of \$258,000.00 to OAE in violation of the Act (see Exhibit C).

V. CAUSATION - VIOLATIONS OF THE SHIPPING ACT

AND INJURY TO COMPLAINANT

35. In reference to the aforementioned plead facts and recitals Complainant further alleges the following violations of the Act.

36. Hapag is a common carrier by water as defined by the Act.

37. The Act at 46 USC §41102(c) provides: “**(c) Practices in handling property.** A common carrier, marine terminal operator, or ocean transportation intermediary may not fail to establish, observe, and enforce just and reasonable regulations and practices relating to or connected with receiving, handling, storing, or delivering property.”

38. The return of empty containers to a common carrier relates to or is connected with the receiving, handling, storing, or delivering property, as contemplated by the Act (see 46 C.F.R. §565.5(c)(ii)). An ocean carrier such as Hapag is responsible for having adequate terminal facilities see 85 FR 29638, 29650.

39. The Commission has adopted interpretive rule 46 C.F.R. §565.5 to help identify unreasonable practices as contemplated by 46 USC §41102(c). It provides in its relevant part:

“(c) Incentive principle—

(1) General. In assessing the reasonableness of demurrage and detention practices and regulations, the Commission will consider the extent to which demurrage and detention are serving their intended primary purposes as financial incentives to promote freight fluidity.

(2) Particular applications of incentive principle—...

(ii) Empty container return. Absent extenuating circumstances, practices and regulations that provide for imposition of detention when it does not serve its incentivizing purposes, such as when empty containers cannot be returned, are likely to be found unreasonable.

(d) Demurrage and detention policies. The Commission may consider in the reasonableness analysis the existence, accessibility, content, and clarity of policies implementing demurrage and detention practices and regulations, including dispute resolution policies and practices and regulations regarding demurrage and detention billing. In assessing dispute resolution policies, the Commission may further consider the extent to which they contain information about points of contact, timeframes, and corroboration requirements. ...

(f) Non-Preclusion. Nothing in this rule precludes the Commission from considering factors, arguments, and evidence in addition to those specifically listed in this rule.”

40. The above factual recitals establish that Hapag’s practices have impacted freight fluidity and Hapag’s unreasonable practices and policies have and continue to give rise to the imposition of detention charges upon OAE when empty containers cannot be returned. Examples include:

a. Where dual transactions are required to return an empty container. OAE submits this is an unreasonable practice regardless if OAE can take advantage of such appointments⁴. In the alternative, if a dual transaction was not available to OAE, no detention

⁴ As noted by the Commission at 85 FR 29638, 29655 “The Commission is particularly concerned about the reasonableness of dual move requirements, or more specifically, an ocean carrier imposing detention when a trucker’s inability to return a container within free time is due to it not being able to satisfy a dual move requirement.”

should be charged. Further requiring a dual transaction to return an empty without penalty of detention, in addition to violating 46 U.S.C. §41102(c), constitutes an unreasonable preference or practice per 46 U.S.C. §41104(a)(3) and (8) and thus is an independent violation of the Act.

b. Where Hapag designates a terminal for return of empties but the terminal itself has no appointment (or an inadequate amount of appointments) to allow a return of an empty.

c. Where Hapag creates operational difficulties for OAE whereby it is required to deck Hapag's empty containers. Thereafter if a single empty return is available, there is no consideration if operationally the empty can be returned, including the requirement to have chassis available, to the container placed on a chassis and to meet any appointment. Further the number of containers refused by Hapag that had to be stored at OAE without compensation, should be taken into account when determining the ability to return only a limited number at any one time.

d. Hapag's refusal to accept empties ultimately required OAE to decline to pull subsequent full Hapag load, thus further decelerating cargo fluidity.

41. Hapag's actions also caused additional injury to OAE including; 1) Hapag created operational difficulties for OAE whereby it is required to maintain Hapag empties on its specialized chassis for unreasonable amounts of time and/or stack Hapag empty containers in its yard; 2) OAE has been forced to invoice its own customers for storage, flipping, chassis use and re-delivery fees where applicable; 3) has generally interfered with the efficient operations of OAE; 4) has required OAE to refuse in some instances to pull Hapag full loads of its customer's imports since it has no way to terminate the empty container. This injury has several facets. It harms the relationship with its customer, it has direct financial impact to OAE because it loses the ability to pull that full load and has a cascading effect of reducing the dual transactions available to it to

return empty containers on hand; 5) resulted in OAE from accepting unrelated business; 6) required OAE to act as an involuntary, uncompensated storage yard for Hapag equipment.

42. The above recitals support an award of reparations under 46 USC §41102(c) as further interpreted by 46 C.F.R. §545.4 and 46 U.S.C. §41104(a)(3) and (8).

VI. DAMAGES

43. Hapag's violations of the Act have caused the following damages to Complainant.

a. The cost of storage of Hapag's empty containers; and

b. The chassis use fees associated with the storage of Hapag's empty containers;

and

c. To the extent applicable, the cost to flip Hapag's empty containers to and from the chassis when necessary; and

d. detention charges assessed against OAE; and

e. re-delivery charges; and

f. damages associated with the interference of existing contracts between OAE and its customers; and

g. damages associated with the inability to accept certain work because of the lack of space and/or equipment caused by the empty Hapag containers; and

h. damages associated with the disruption of the operations of OAE as a result of Hapag's refusal to accept its empty containers, and

i. investigation as to other damages suffered by OAE is ongoing.

44. In addition to the damages suffered by OAE, based upon information and belief, the violations committed by Hapag have also effected similarly situated motor carriers and members of the public.

45. Detention charges assessed by Hapag are included in the amounts listed in Exhibit C but continue to accrue. Investigation and discovery are continuing as to all damages. OAE reserves the right to provide proof of all damages for the purposed of reparations pursuant to 46 C.F.R. §§502.251 et. seq.

VII. REQUEST FOR RELIEF

46. WHEREFORE Complainant requests entry of an order against Respondent for the following: Complainant requests that respondent be required to answer the charges made in this complaint; that after hearing or other summary determination, the Commission order respondent to:

- a. Cease and desist from violating the Act; and
- b. to put in place lawful and reasonable practices to avoid continuing and future violations of the Act.; and
- c. Payment of reparations for the unlawful conduct described herein, in amounts according to proof for, but not limited to the following;
 - i. For container storage, chassis use and redelivery fees; and
 - ii. For flip charges; and
 - iii. for reimbursement or cancellation of detention invoices listed in Exhibit C or as otherwise issued by Hapag; and
 - iii. For damages associated with the interference with OAE's current and prospective contracts; and
 - iv. For disruption of OAE's operations resulting from Respondent's unlawful conduct according to proof; and
 - v. For interest on the amounts awarded; and

d. For attorney's fees and costs pursuant to 46 USC §41305, 46 C.F.R. §502.254 or as otherwise recoverable; and

e. For payment of any other sums the Commission deems appropriate; and

f. For such other relief as the Commission deems just and proper, including injunctive relief, temporary or permanent.

VII. REQUEST FOR ORAL HEARING

47. Complainant requests a hearing on this matter and further requests that the hearing be conducted at the Commission's regional office or other appropriate location in Los Angeles, County California.

Date: November 19 2021

Subject: empty return

Hello HLAG,
Where can we return empty hapaag Lloyd reefers today ?

Thank you,

Tony Carbajal
Three Rivers Trucking, Inc.

2300 W. Willow Street
Long Beach, CA. 90810
Office: (562) 432-0628
Fax: (562) 435-1083

IMPORTANT NOTICE: Orders that are not ready to load 48 hours prior to cut off. May be accepted per customers specific request with the understanding that we cannot indemnify these loads against outside circumstances that may prevent on time delivery. Including but not limited to: Equipment failure, terminal congestion, equipment availability, labor issues at the terminals or packing house delays. Three Rivers Trucking will not be held liable for any charges assessed by the Steamship Lines, terminal, and/or 3rd party vendors, such as Chassis fees, Per Diem, and Demurrage. All fees of this type are the sole responsibility of the exporter/importer, agent, or representative, and will be billed accordingly.

Good afternoon,

Hapag-Lloyd doesn't have any control over the appointment system at the terminal. Please continue to try and make the next available.

Regards,

Mary Arzuman
Hapag-Lloyd (America)

HLAG,
Pier A does not have appointments to return empties. Can you please help exempt empty returns or provide a different location to terminate empty 40' reefers? please advise.
