Docket No. 17-02

**COMPLAINANT'S OBJECTIONS AND RESPONSES TO RESPONDENT'S
FIRST REQUEST FOR PRODUCTION OF DOCUMENTS**

Pursuant to 46 CFR 502.206, Complainant hereby responds to Respondent's First Request for Production of Documents.

GENERAL OBJECTIONS

1. Complainant reserves the right to supplement and amend these responses should future investigation indicate that such supplementation or amendment is necessary. Complainant's responses should in no way be considered prejudicial in relation to further discovery, investigation, research, analysis or production of evidence.

2. Complainant's responses are made solely for the purpose of and in relation to this action. Each response is given subject to all appropriate objections including, but not limited to objections concerning privilege, competency, relevancy, materiality, propriety and admissibility. All objections are reserved and may be interposed at any time.

3. Complainant incorporates by reference each and every general objection set forth below into each and every specific response. On occasion, a specific response may repeat a general objection for emphasis or some other reason. The failure to include any objection

into any specific response shall not be interpreted as a waiver of any general objection to that response.

4. By responding to Respondent's Requests, Complainant does not waive any objection that may be applicable to: (a) the use, for any purpose, by Respondent of any information or documents given in this response to Respondent's Requests; or (b) the admissibility, relevancy or materiality of any information or documents at issue in this litigation.

5. To the extent Complainant has not already produced documents responsive to any specific Request, Complainant will respond to each Request with documents currently in Complainant's possession, custody or control located after a reasonable search. Complainant does not represent that any documents actually exist, only that Complainant will make a good faith search and attempt to ascertain whether documents responsive to the Requests do in fact exist.

6. Complainant's responses are made to the best of its present knowledge, information and belief. Complainant's responses are at all times subject to such additional or different information that discovery or further investigation may disclose and, while based on the present state of its recollection, is subject to such refreshing of recollection, and such additional knowledge of facts as may result from further discovery or investigation.

7. Complainant reserves the right to make any use of, or to introduce at any hearing or trial, documents that are responsive to Respondent's Requests, but discovered subsequent to Complainant's production, including, but not limited to, any documents filed, served or obtained in discovery in this litigation.

8. Complainant reserves the right to decide whether the documents produced shall be produced as they are kept in the usual course of business or shall be organized and labeled to

correspond with the categories in Respondent's Requests in accordance with 46 CFR 502.206(b)(2)(v).

9. Complainant reserves the right to object to or question the authenticity, competency, relevance, materiality, privilege or admissibility of any document or thing produced in response to Respondent's Requests if such document or thing is offered as evidence in any proceeding or trial in this or any other action for any purpose whatsoever.

10. Complainant reserves the right to object on any ground at any time to such other or supplemental requests for production as Respondent may propound involving or relating to the same subject matter of these Requests.

11. Complainant objects to each and every Request to the extent it calls for production of documents or information protected by the attorney-client privilege or the attorney work product doctrine. Nothing contained herein is intended to be or should be construed as a waiver of the attorney-client privilege or the attorney work product doctrine.

12. Complainant objects to each and every Request to the extent it seeks information that is confidential information of third parties, and which Complainant is contractually obligated to maintain as confidential information. Complainant will produce such documents only subject to approval of those third parties or as ordered by the Commission.

13. Complainant objects to each Request to the extent it seeks the production of "all" or "every" document as unnecessarily broad and unduly burdensome. Complainant will make a reasonable production of responsive, non-privileged, non-immune documents relevant to a claim or defense, to the extent that they exist, are in Complainant's custody or control and can be located after a reasonable search.

14. Complainant objects to each Request to the extent it seeks the production of documents and things that are not relevant to any claim or defense in this action, and are not reasonably calculated to lead to the discovery of admissible evidence.

15. Complainant objects to each Request to the extent the discovery sought is unreasonably cumulative or duplicative, is publicly available or is obtainable by Respondent from some other source that is more convenient, less burdensome or less expensive.

16. Complainant objects to each and every Request, and to definitions and instructions, to the extent they purport to impose additional burdens or duties on it that exceed the scope of reasonable and permissible discovery under 46 CFR Part 502.

Subject to and without waiving the general objections above, and subject to additional objections made to specific Requests below, Complainant responds as follows:

RESPONSES TO REQUESTS

Docket No. 17-02

**COMPLAINANT'S OBJECTIONS AND RESPONSES TO RESPONDENT'S
FIRST SET OF INTERROGATORIES**

Pursuant to 46 CFR 502.205, Complainant hereby responds to Respondent's First Set of Interrogatories.

COMMENTS AND GENERAL OBJECTIONS

A. Complainant's responses to each interrogatory are made without waiver of its General Objections to Respondent's First Request For Production of Documents, which Complainant incorporates by reference into this set of interrogatories.

B. The following General Objections and statements are applicable to, and shall be included in, Complainant's response to each Interrogatory, whether or not mentioned expressly in any particular response. Complainant does not waive any of its General Objections by stating specific objections to any particular Interrogatory. Complainant's responses are based solely on its current knowledge and belief. Complainant reserves the right to modify and supplement any of its responses and to assert additional objections as it deems necessary and/or appropriate.

C. Complainant's responses and production in response to the Requests are not admissions or acknowledgements that the Requests call for information that is relevant to the

claims or defenses of this action. By identifying a document, Complainant does not admit that the document is relevant or admissible at a hearing or trial of this action. Complainant expressly reserves the right to object to the introduction into evidence of any information, document, thing, or portion thereof that it offers to produce or produces.

D. Complainant objects to each interrogatory to the extent it seeks information or identification of documents protected by the attorney-client privilege, attorney work-product immunity, the joint-defense or common-interest privileges, or any other applicable privilege or immunity, and to the extent that they seek identification of privileged or immunized information prepared after the commencement of this lawsuit.

E. Complainant objects to each interrogatory to the extent it seeks information about the exploratory efforts of Complainant's counsel in the pre-filing investigation or in the preparation of this case for trial.

F. Complainant objects to each interrogatory to the extent it seeks information not reasonably calculated to lead to the discovery of admissible evidence or is not relevant to any claim or defense in this action.

G. Complainant objects to each interrogatory to the extent it seeks information that is cumulative or duplicative.

H. Complainant objects to each interrogatory to the extent it seeks information that is at least equally available to Respondent, including through public sources or public records.

I. Complainant objects to each interrogatory to the extent it seeks information or concerns persons that are not within the possession, custody or control of Complainant.

J. Complainant objects to each interrogatory to the extent it seeks information beyond what is available to it at present from a reasonable search of its own files and from a reasonable inquiry of its present employees.

L. Complainant objects to each interrogatory to the extent it calls for the disclosure of confidential information of any third party that is in the possession of Complainant's information pursuant to confidentiality and non-disclosure restrictions imposed by contract or applicable law.

M. Complainant objects to each interrogatory to the extent that it seeks a legal conclusion. Complainant's responses shall constitute matters of fact only. None of Complainant's responses shall be construed as stating or implying a conclusion of law concerning the matters referenced in any interrogatory.

N. Complainant responds to the interrogatories based on the best of its employees' present knowledge, information, and belief. Complainant reserves the right to supplement, amend, or modify its responses as it obtains additional information and/or uncovers additional documents.

O. Complainant responds to these interrogatories insofar as it currently understands them. If Respondent later asserts an interpretation that differs from Complainant's understanding, Complainant reserves the right to supplement, amend, and/or modify its responses including the right to interpose additional objections.

P. The General objections above and the objections in the specific responses below are made as to matters that are clearly objectionable on the face of Respondent's interrogatories. Complainant makes the objections without prejudice to and without waiver of its right to object on any other grounds to any of Respondent's interrogatories.

Subject to these General objections and subject to the specific objections made to the interrogatories below, Complainant responds as follows:

RESPONSES TO INTERROGATORIES

INTERROGATORY NO. 1:

Identify all persons with knowledge concerning the Incident and the events referenced in the pleadings filed in the above-captioned action.

OBJECTIONS TO INTERROGATORY NO. 1:

Complainant incorporates by reference each of the Comments and General Objections stated above.

RESPONSE TO INTERROGATORY NO. 1:

Subject to and without waiving the foregoing General and specific objections, Complainant responds as follows: Xingliang Qian has knowledge regarding the events referenced in the pleadings. Upon information and belief, Complainant also believes that Respondent's employees, including but not limited to an employee named "Yuen", have knowledge of the events.

INTERROGATORY NO. 2:

Identify each witness you expect to call at trial and the purpose for which the testimony will be offered.

OBJECTIONS TO INTERROGATORY NO. 2:

Complainant incorporates by reference each of the Comments and General Objections stated above.

RESPONSE TO INTERROGATORY NO. 2:

Subject to and without waiving the foregoing General and specific objections, Complainant responds as follows: Complainant does not anticipate calling any expert

witnesses at this time. However, Complainant reserves the right to amend this response after having the opportunity to review Respondent's responses to discovery.

INTERROGATORY NO. 3:

Identify all evidence that you will present at trial.

OBJECTIONS TO INTERROGATORY NO. 3:

Complainant incorporates by reference each of the Comments and General Objections stated above. Complainant additionally objects to this interrogatory as compound. Complainant further objects to this interrogatory on the grounds that the requested information is more practically obtained through a request for production.

RESPONSE TO INTERROGATORY NO. 3:

Subject to and without waiving the foregoing General and specific objections, Complainant responds that information responsive to this interrogatory may be derived or ascertained from a review of Complainant's business records with substantially the same effort as would be incurred by Complainant, as provided in Rule 502.205(d), and Complainant refers Respondent to the documents produced in response to Respondent's First Request for Production of Documents.

INTERROGATORY NO. 4:

State the name and address of any person who has made a statement regarding the subject matter of the above captioned actions and provide a summary of the statement, or attach a copy, if written.

OBJECTIONS TO INTERROGATORY NO. 4:

Complainant incorporates by reference each of the Comments and General Objections stated above. Complainant further objects to this interrogatory on the grounds that the requested information is more practically obtained through a request for production.

Complainant also objects to this interrogatory because it is vague, ambiguous, and overbroad as the term "subject matter of the above captioned actions" is not defined. Complainant understands the interrogatory to be directed at formal statements made by parties or non-parties regarding Respondent's decision to release the goods in question.

RESPONSE TO INTERROGATORY NO. 4:

Subject to and without waiving the foregoing General and specific objections, Complainant states that it is not aware of any such statements as it understands this interrogatory.

INTERROGATORY NO. 5:

State the names and addresses of any and all proposed expert witnesses, attaching (i) a complete statement of all opinions the expert witness will express and the basis and reason for the opinion(s), (ii) the facts or data considered by the witness in forming the opinion(s), (iii) any exhibits that will be used to summarize or support the opinion(s), (iv) the expert witnesses qualifications including a list of all publications authored in the previous 10 years, (v) a list of all other cases which, during the previous four years, the witness testified as an expert for trial or by deposition, and (vi) a statement of the compensation to be paid for the study and testimony in the case.

OBJECTIONS TO INTERROGATORY NO. 5:

Complainant incorporates by reference each of the Comments and General Objections stated above.

RESPONSE TO INTERROGATORY NO. 5:

Subject to and without waiving the foregoing General and specific objections, Complainant responds as follows: Complainant does not anticipate calling any expert witnesses at this time. However, Complainant reserves the right to amend this response after having the opportunity to review Respondent's responses to discovery.

INTERROGATORY NO. 6:

At least thirty (30) days prior to the discovery cutoff date, state each contention that you will assert in support of the Complaint, and in defense to the counterclaims as well as in support of any affirmative defenses alleged therein, and identify the specific evidence to be relied upon at trial to support each of the elements of the claim or the defense, especially any proof that the Complainant contacted with the Consignee, Receiver and/or the end users of the Caro carried under the Bills of Lading in question.

OBJECTIONS AND RESPONSES TO INTERROGATORY NO. 6:

Complainant incorporates by reference each of the Comments and General Objections stated above. By the express language of this interrogatory, no response is due at this time. Complainant reserves its right to object and respond to this Interrogatory at a later time.
