I have over 3000 I payed for cruses (4000 in cruse credits) with royal Caribbean . I always hoped this vires. Would go away. But I see it is not and do not fell safe crusing. They say I missed the dead line for getting money back. How does this ruling affect me. As royal Caribbean had changed there rolls and not getting info to cruses. They say it is the agents responsibility. But the agents from how I booked with got layed off.
