I would appreciate if you would mandate any cruise lines that take on USA passengers anywhere in the world if a cancellation is made 60 days before a trip, that we get all of our funds back if there is any health risk regardless of a pandemic or not.

It has taken me over 19 months to get my money back after several emails, letters and hiring a lawyer before my refund was handled. That said, I had to pay the lawyer 4,000.00 dollars when all was resolved which was 60% of the funds I got back so I got screwed anyway.

I would appreciate you passing that mandate ASAP.

Jose M. Marquez
