I have had several cruises booked with Royal Caribbean that were cancelled by Royal Caribbean since COVID. I had to rebook them however , each time I did not get the full credit or refund . I also had to pay a new deposit again even though I had a credit to cover.

This has been a very costly and time consuming effort . At times I was on the phone holding and speaking to several people for hours. The problem never seemed to get resolved.

Cruising used to be fun however the cruise lines namely Royal Caribbean have made this a never ending expensive dilemma. I have lost several hundred dollars and still have 2 cruises booked. I do have travel insurance as I did in the past but they would not honor it.

I have lost my taste for cruising and confidence in Royal Caribbean because of safety. My doctor does not recommend me to cruise until maybe 2023. Please get this bill passed so I can get a full refund. I am 72 years old and have underlying health problems. I had a letter stating that but they didn't accept it.

Thank you Kathleen Lang
