Subject: Demurrage and Detention fees

Hello

I saw an article that you were soliciting public comments about the outrageous gouging of the current demurrage and detention regimes. I have been in contact with WA Senator Murray's office earlier in the year because we (and certainly a lot of other importers) are getting absolutely killed by the fees. They tried to help a little but didn't amount to much. I have those email exchanges if you are interested. We cannot continue to do business like this much longer. If they can't deal with capacity, why should we all have to pay for that?

Are the comment periods still open? Is there any relief being offered now? And back-dated relief?

My past three bills have had OVER \$11,000 each in demurrage charges. The loads themselves were only about \$25k. Yes, you read that right.

We scraped by during the pandemic only to be hit with this.

Any help would be greatly appreciated.

Thank you

Eric Dillin
