Individuals who have paid for cruises , should be able to get a full refund if a destination country does not allow U.S. citizens from entering a country. Currently in most cases you can only get a credit. If credit only then cruise company should reschedule same trip at a future time. I had to change reservation for the third year in a row because of the Covid 19 virus The cruise company (Scenic Cruises) has had \$20000.00 of my money and does not offer original trip. I have been to the destinations now being offered. Why should any individual be out their hard earned money? \$20.00 or \$20000.00
