Dear Secretary of FMC,

Help, Assist and Protect cruise travelers. Many are seniors with limits of mobility who are being frauded out of the funds used for their vacations of a lifetime.

Refunds are needed when the cruise is cancelled while vouchers issued for future use are never redeemed due to illness, aging and life expectancy.

Example, Glenn Beck's cruise through history. In Any future environment there will be expectations and requirements that still impact the cruise industry. This last 2 years has been the pandemic of COVID.

After 2 scheduling dates and now a cancellation we are fighting for a refund. The vouchers that are being offered will outlive the travelers,

Protect consumers and the MOMS, DAD's. and Grandparents of America from being rob of their hard earning funds. We do have travel insurance with the false impression it will protect us, it doesn't not.

EXAMPLE:

Glenn Beck Cruise: Want My Money Back has 362 members on Facebook and Glenn Beck Cruise Through History has 904 members. Refunds total in the thousands which remain in the pockets of the cruise line.

We have been unable to retrieve any portion of our funds. Change the oversight, rules, compliance for future cruise line policies on refunding individual funds. However, if you can assist the wounded in what is happening now, it would be a blessing to us. Thank you

Help,

Alice Moise
