Total Annual Burden: 48 hours.

Total Annual Cost: \$2,200.

Needs and Uses: On March 3, 2020, the Commission released a Report and Order and Order of Proposed Modification titled, "In the Matter of Expanding Flexible Use of the 3.7 to 4.2 GHz," GN Docket Number 18-122 (FCC 20-22). This rulemaking, which is

under the purview of the Commission's Wireless Telecommunications Bureau, is hereinafter referred to as the 3.7 GHz Report and Order.

The Commission believes that C-band spectrum for terrestrial wireless uses will play a significant role in bringing next-generation services like 5G to the American public and assuring American leadership in the 5G ecosystem. The agency took action to make this valuable spectrum resource available for new terrestrial wireless uses as quickly as possible, while also preserving the continued operation of existing Fixed Satellite Services (FSS) available during and after the transition.

In the 3.7 GHz Report and Order, the Commission concluded that a public auction of the lower 280 megahertz of the C-band will best carry out our goals, and the agency will add a mobile allocation to the 3.7-4.0 GHz band so that next-generation services such as 5G can use the band. Relying on the Emerging Technologies framework, the Commission adopted a process to relocate FSS operations into the upper 200 megahertz of the band, while fully reimbursing existing operators for the costs of this relocation and offering accelerated relocation payments to encourage a speedy transition. The Commission also adopted service and technical rules for overlay licensees in the 280 megahertz of spectrum designated for transition to flexible use.

Among other information collection requirements in the 3.7 GHz Report and Order, the Commission has adopted several requirements, described in the text, related to the protection of TT&C earth stations and coordination with 3.7 GHz Service licensees. In a section of the 3.7 GHz Report and Order titled "Adjacent Channel Protection Criteria" the Commission sets out the following requirements:

Pursuant to paragraph 388 of the 3.7 GHz Report and Order, the Commission requires that the TT&C operators make available certain pertinent technical information about their systems upon request by licensees in the 3.7 GHz Service to ensure the protection of TT&C operations. In addition, paragraph 389 of the 3.7 GHz Report and Order includes the requirement that, in the event of a claim by a TT&C earth station operating in 4.0-4.2 GHz of harmful interference by a 3.7 GHz operator, the earth station operator must demonstrate that that have installed a filter that complies with the mask requirement prescribed by the Commission. This requirement will facilitate an efficient and safe transition by requiring earth station operators to demonstrate their compliance with the mask

requirements, thereby minimizing the risk of interference.

FEDERAL MARITIME COMMISSION

[Docket No. 23-13]

USL AUTO EXPORTING INC., Complainant v. EASY SHIPPING CORPORATION, Respondent; Notice of Filing of Complaint and Assignment

Served: December 4, 2023.

Notice is given that a complaint has been filed with the Federal Maritime Commission (the "Commission") by USL Auto Exporting Inc. (the "Complainant") against Easy Shipping Corporation (the "Respondent"). Complainant states that the Commission has subject matter jurisdiction over the complaint and personal jurisdiction over the Respondent pursuant to the Shipping Act of 1984, as amended, 46 U.S.C. 40101 *et seq.*

Complainant is a North Carolina limited liability company with a principal place of business in Charlotte, North Carolina.

Complainant identifies Respondent as a corporation existing under the laws of the state of Illinois with a principal place of business in Calumet Park, Illinois.

Complainant alleges that Respondent violated 46 U.S.C. 44102(c) regarding a failure to establish, observe, and enforce just and reasonable practices relating to receiving, handling, storing, and delivering property. Complainant alleges these violations arose from a misdeclaration in the shipping instructions; a failure to file a declaration for a returned container; and a failure to pay assessed fees.

An answer to the complaint must be filed with the Commission within 25 days after the date of service.

The full text of the complaint can be found in the Commission's electronic Reading Room at <https://www2.fmc.gov/readingroom/proceeding/23-13/>. This proceeding has been assigned to the Office of Administrative Law Judges. The initial decision of the presiding judge shall be issued by December 4, 2024, and the final decision of the

Commission shall be issued by June 18, 2025.
