

Before the Federal Maritime Commission, Washington, DC.

Docket No. 25-08

FormuKleen, Inc.
(Complainant)

Top Shipping Systems, Corp.
(Respondent)

Response to Motion to Increase Page Count and Motion to Allow the Respondent to Respond with a Higher Page Count

COMES NOW Respondent, Top Shipping Systems, Inc. (“TSS”), by and through its undersigned counsel, and files this its Response to the Complainant’s Motion to Increase the page count and to allow it to file a Response with a higher page count and would state the following:

1. The page count limit for a Motion to Compel is 10 pages.
2. The Motion is 21 pages plus exhibits.
3. The undersigned understands the necessity for additional pages.
4. Likewise, the Respondent would need to exceed 10 pages in its Response.
5. The Response by TSS tracks the process set up by the Complainant to go through the Requests and then add its Response to the Plaintiff’s contents as required by the Rules which will make it easier for the Administrative Law Judge and the parties to follow the exchange between the parties.
6. The Respondent has been working on a detailed Response but is in the process of redacting a good many documents for a confidential and public filing of the documents. Many of them have TSS billing rates and other information.
7. The documents need to be before the Administrative Law Judge in order for him to see the length of cooperation that has been extended to the Complainant in terms of good faith compliance with the

Discovery Requests which TSS contends are more than adequate.

8. TSS is responding to the Motion to Enlarge by agreeing to it but will simply need time to finish the redaction and file its complete responses given the redaction process and separate Motion for Confidentiality that is required under the Rules.
9. The Respondent can file the unredacted portions this week if the Administrative Law Judge will accept them in an initial Confidential manner so that the proceedings are not delayed by redactions.

Wherefor the Respondent responds by stating that it does not object to the length of the Motion and would seek to also be allowed to exceed the length and file the Response initially with documents in a Confidential manner which will facilitate the process
