Re: Docket 18-11 – NPRM

Dear Ms. Dickon,

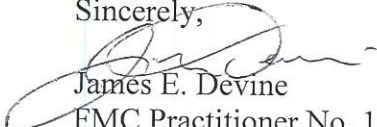

On behalf of Distribution-Publications, Inc., I am pleased to take this opportunity to comment on Docket 18-11, Amendments to Regulations Governing Licensing, Bonding Requirements and General Duties for Ocean Transportation Intermediaries.

As tariff publishers, we advise our clients on the Commission's regulations and publish tariffs for ocean carriers, NVOCCs and marine terminal operators. These tariffs are accessible to the Commission and the shipping public at www.dpiusa.com. We handle the preparation and submission of the FMC-1 tariff registration forms for all our tariff publication clients. As an FMC Practitioner, I have personally handled OTI license applications on a daily basis since March 1999. Based on this experience, we have expertise in the subject matter of this petition and an interest in this proceeding.

We agree the proposed changes are largely of an administrative and procedure nature. We agree none of the proposed changes will increase the burden on applicants, licensees or registered foreign-based NVOCCs. We agree the clarifications to wording in 46 CFR Part 515 as proposed in Docket 18-11 will add clarity to the Commission's licensing regulations. In our experience, many of the proposed changes simply update the regulations to reflect current policies and procedures of the Commission's Bureau of Licensing and Certification.

We support the proposed change to 46 CFR Part 515.14, Issuance, Renewal and Use of License, which will add a requirement for NVOCCs to submit the FMC-1 tariff registration form prior to being issued an FMC-OTI license. This simple change will help ensure newly licensed NVOCCs comply in a timely manner with the Commission's tariff publication requirement. We agree it will add no additional burden to these NVOCCs; this will merely be a change to the timing of the FMC-1 requirement, and one that will help the Commission enforce this requirement more efficiently.

Sincerely,

James E. Devine

FMC Practitioner No. 1322
