Subject: ~~Comments to docket no 12-05~~ *UPDATED

Dear Secretary Gregory,

BDG International Inc. is an NVOCC and FMC freight forwarder. Our key business is providing services directly to shippers for the movement of individual shipments. It is our goal to provide service with integrity as per our mission statement.

With the changes in the economy and service requirements we are providing a new quotation to our customers per shipment as well as having to file a new tariff line each shipment. The labor and cost of filing individual tariffs is an overwhelming expense that can not be re-couped from the client nor from any source. This is a cost that we have to bear.

The purpose of the tariff filing or NSA or NRA does not benefit our clients. Due to there being no benefit to BDG or our clients we have chosen not to pursue the NSA option.

We would like to recommend to the following changes to the FMC tariff filing:

1. Maintain the licensing and bonding requirements for an NVOCC 2. Maintain the requirement for filing the rules in a public format 3. Abolish the requirement for filing tariff rates or NSA or NRA of any type.

Please let us know if you have any questions regarding our comments.

Thank you,

Lisa Victoria Waller, CHB
