Dear Ms. Gregory,

I thank you in advance for allowing me to express my feelings on the proposed rule changes for NVOCC & FF licensing & bonding. The proposed rule changes will most definitely place an immense burden on the financial condition of my business. I am a start up company and don't have the ability to pay the reoccurring and enhanced fees. The proposed changes would surely create financial hardships for the **small businesses** while making the larger established companies able to flourish by gathering the smaller businesses customers as we are forced to close our doors. These changes won't in any way affect the larger NVOCC's & FF's but would surely force the **small business** owners to close their doors.

If the proposed rule changes are going to go in effect maybe a compromise as to the fees charged could be in direct relation to the gross yearly profits of the business. Just a thought. Your return feedback will be welcome.

Thank You and Best Regards,
