**ANSWER OF RESPONDENT MAERSK A/S
TO THE VERIFIED COMPLAINT**

Respondent MAERSK A/S (“Maersk”), by and through its undersigned counsel, hereby answers the Verified Complaint of INTERMODAL MOTOR CARRIERS CONFERENCE and AMERICAN TRUCKING ASSOCIATIONS, INC. (collectively, “Complainant”) as follows.

INTRODUCTORY STATEMENT AND GENERAL DENIAL

The Complaint, rather than being a clear and concise factual statement of Complainant’s claims, is an amalgam of conclusory statements, vague and undefined terminology, select quotations from hearsay documents and legal conclusions. The Complainant’s lack of precision and mischaracterizations of organizations impose an undue burden upon Maersk to answer within the rules governing pleadings.

Maersk accordingly generally denies the claims alleged by the Complainant and, to the best of its ability, sets forth the below specific responses to the numbered paragraphs of the Complaint.

1. Denies the allegations in Paragraph 1 alleged against Maersk, as they constitute legal conclusions to which no response is required. Maersk lacks sufficient information or knowledge to admit or deny allegations against the other Respondents.

2. Admits that the Consolidated Chassis Management Pool Agreement was filed in 2006 with the Federal Maritime Commission (“Agreement”), which document speaks for itself. Except as admitted, Maersk lacks sufficient information or knowledge to admit or deny whether OCEMA members sold their chassis to third-party providers and denies the remaining allegations of Paragraph 2 of the Complaint.

3. Denies the allegations in Paragraph 3 alleged against Maersk, as they constitute legal conclusions to which no response is required. Maersk lacks sufficient information or knowledge to admit or deny allegations against the other Respondents.

4. Denies the allegations in Paragraph 4 against Maersk, as they constitute legal conclusions to which no response is required. Maersk lacks sufficient information or knowledge to admit or deny allegations against the other Respondents.

5. Denies the allegations in Paragraph 5 against Maersk, as they constitute legal conclusions to which no response is required. Maersk lacks sufficient information or knowledge to admit or deny allegations against the other Respondents.

6. Maersk lacks sufficient information or knowledge to admit or deny.

7. Maersk admits that OCEMA is a District of Columbia non-profit corporation and denies the remaining allegations of the first sentence of Paragraph 7 of the Complaint. Maersk admits

the allegations in the second sentence of Paragraph 7 of the Complaint. Admits only that the OCEMA website referenced in the third and fourth sentences of Paragraph 7 of the Complaint speaks for itself. Admits only that OCEMA reaches agreements on policies relating to the operation of Chassis Pools, and denies the remaining allegations in the fifth sentence of Paragraph 7 of the Complaint. Admits only that the OCEMA website referenced in the sixth sentence of Paragraph 7 of the Complaint speaks for itself. Lacks sufficient information or knowledge to admit or deny the seventh sentence of Paragraph 7 of the Complaint as it does not specify the “Respondent” which it is referring to. Maersk denies the seventh sentence of the Complaint if OCEMA is the “Respondent” that this allegation is referring to.

8. Maersk admits that CCM is a Delaware limited liability company with headquarters located at 500 International Drive, Suite 130, Budd Lake, NJ 07828. Maersk denies that mwilson@ccmpool.com is the email address of CCM but admits that it is the email address of an employee of CCM. Admits only that the CCMP Agreement and the CCM website referenced in Paragraph 8 of the Complaint speak for themselves.

9. Maersk lacks sufficient information or knowledge to admit or deny.

21. The allegations of the first, third and fourth sentences of Paragraph 21 constitute legal conclusions to which no response is required and, to the extent a response is required, Maersk denies the allegations therein. 42. Admits only that the publication *Interoperability Matters! The Interoperable Gray Pool Model, Enhancing Supply Chain Efficiencies*, speaks for itself.
