Date: Thursday, April 9, 2020 1:31:14 PM

Dear Honorable Judge Erin,

I don't believe I am supposed to respond to the complainant last Proposed facts, But Just wanted to remind that in my brief I established the complainant has lack of knowledge which resulted in these delays, and his last proposed facts actually supports that even more.

BOL draft has to be sent prior to vessel departure, otherwise the container can be rolled and high fees would apply, the respondent was responsible to make sure nothing like that will happen and **submitted BOL draft as required in time to protect the complainant.**

We also all agree that the bill of lading is indeed not the issue, but once again is shows the complainant lack of understanding of the process !

Hope everyone is safe and healthy !

Michelle (Michal) Franklin
