

**BEFORE THE
FEDERAL MARITIME COMMISSION**

Globerunners, Incorporated,

Docket No.: 22-27

Complainant,

-Against-

Hoyer Global (USA), Inc.,

**Respondent's Answer to
Complainant's Verified
Complaint**

Respondent.

ANSWER TO VERIFIED COMPLAINT

1. Respondent **Hoyer Global (USA), Inc.** (hereinafter “Hoyer”), by its attorneys, HILL RIVKINS LLP, hereby submits this Answer to the Verified Complaint of Complainant, Globerunners, Incorporated (hereinafter “GRI”) incorrectly alleging certain violations of the Shipping Act of 2022 and regulations promulgated thereunder.

2. Respondent Hoyer objects to the captioning of GRI’s complaint as “Verified”, when the Verification attached to the Complaint with which Hoyer was served and which was published in the Federal Register is unsigned, and the Complaint is based solely and entirely upon information and belief.

PARTIES AND OTHER ENTITIES

3. Respondent Hoyer admits the allegations set forth in Paragraph 3 of the Verified Complaint.

4. Respondent Hoyer admits that GRI acts as a non-vessel operating common carrier (“NVOCC”) in connection with certain ocean shipments, but denies that GRI acted as an

NVOCC in connection with the shipment at issues, as it is unaware of GRI's issuing a bill of lading or sea waybill as carrier to any customer, and further denies knowledge or information sufficient to form a belief as to the remaining allegations of Paragraph 4 of the Complaint.

5. Respondent Hoyer admits the allegations set forth in Paragraph 5 of the Verified Complaint.

6. Respondent Hoyer admits the allegations set forth in Paragraph 6 of the Verified Complaint.

7. Respondent Hoyer denies knowledge or information sufficient to form a belief as to the truth of the allegations set forth in Paragraph 7 of the Verified Complaint.

I. JURISDICTION

8. Respondent Hoyer denies the allegations set forth in Paragraph 8 of the Verified Complaint; the shipment at issue was booked and commenced, and GRI's obligation to reimburse Hoyer for the charges for which Hoyer seeks recovery vested prior to the enactment of the Shipping Act of 2022, which does not have retroactive effect.

9. Respondent Hoyer denies knowledge or information sufficient to form a belief as to truth of the allegations set forth in Paragraph 9 of the Verified Complaint.

II. FACTUAL ALLEGATIONS

10. Respondent Hoyer admits that GRI arranged to ship certain cargo with Hoyer by sea aboard the M/V Northern Jasper from Charleston, NC, to Busan, Republic of Korea, as alleged in Paragraph 10 of the Verified Complaint, except that the arrangements for said shipment, including the correspondence setting forth the parties' mutual agreement to all terms of carriage, including all rates, were agreed to in writing no later than December 2018.

11. Respondent Hoyer admits the allegations set forth in Paragraph 11 of the Verified Complaint.

12. Respondent Hoyer denies the allegations set forth in Paragraph 12 of the Verified Complaint, in that GRI as the named “SHIPPER” on face of the combined transport bill of lading was also deemed the “Merchant” responsible under the unambiguous terms of said bill of lading and under the terms of a publicly filed tariff for all demurrage, storage, and/or wharfage incurred in connection with the shipment as follows:

Any charges for storage, detention or demurrage of freight or containers, as a result of being in excess of the free time prescribed in ocean carrier’s tariffs or agreements, assessed by vessel operators on whose vessel cargo is/was transported or terminal operator at origin point or port or destination point or port due to some default or oversight of shipper or consignee or holder of bill of lading will be for the account of the cargo without in any way affecting the liability of the carrier for the condition of cargo.

All containers must be completely discharged with no excess product remaining when returned to carrier's designated agent. Otherwise demurrage, detention, storage and related costs will continue as stated above until all excess product has been removed to carrier's satisfaction.

Free time allowed and demurrage and detention charges will be for the account of the cargo and applied in accordance with the provisions of the underlying vessel operating common carrier. Carrier will be governed by an Equipment Interchange Agreement (EIA) with, or provisions as published by, the underlying vessel operating common carrier.

In the event the consignee does not return the container within the number of free calendar days, at the final destination, as agreed upon, the Merchant, Shipper, Consignee, and any other responsible party will be invoiced the applicable demurrage, detention, storage and related charges as agreed to in the NRA and/or as charged by the ocean vessel carrier pursuant to their published tariff. The Merchant, Shipper, Consignee or any other responsible party are jointly and severally liable to pay any outstanding demurrage, detention, storage and related charges.

Accordingly, GRI was responsible for all demurrage charges incurred by Hoyer in connection with the shipment irrespective of the alleged “fault” of any third party.

13. Respondent Hoyer admits the allegations set forth in Paragraph 13 of the Verified Complaint.

14. Respondent Hoyer denies that it is obligated to provide GRI with “proof of the amounts paid” by or on behalf of Hoyer to third party service providers, vessel operating common carriers or port terminals, or that it otherwise has not provided GRI with sufficient documentation to demonstrate the indebtedness of GRI for all amounts sought in the action it filed in the Southern District of Texas; Hoyer otherwise denies knowledge or information sufficient to form a belief as to the truth of any remaining allegations of Paragraph 14 of the Verified Complaint.

III. CAUSES OF ACTION

15. Respondent Hoyer repeats each and every admission, denial and denial upon information and belief set forth in Paragraphs 1 through 14 above as if set forth herein at length.

16. Respondent Hoyer admits the allegations set forth in Paragraph 16 of the Verified Complaint.

17. Respondent Hoyer denies the allegations set forth in Paragraph 17 of the Verified Complaint.

18. Respondent Hoyer denies that it is obligated to provide GRI with “proof of the actual amount paid” by or on behalf of Hoyer to third party service providers, vessel operating common carriers or port terminals, or that it otherwise has not provided GRI with sufficient documentation to demonstrate the indebtedness of GRI for all amounts sought in the action it file in the Southern District of Texas; Hoyer otherwise denies knowledge or information sufficient to form a belief as to the truth of any remaining allegations of Paragraph 18 of the Verified Complaint.

19. Respondent Hoyer denies the allegations set forth in Paragraph 19 of the Verified Complaint.

IV. ALLEGED INJURY SUFFERED BY GRI

20. Respondent Hoyer denies the allegations set forth in Paragraph 20 of the Verified Complaint.

V. ADDITIONAL AVERMENTS OF FACT RELEVANT TO THE DISPUTE HEREIN

21. In December 2018, GRI and Hoyer agreed on the terms of carriage for the shipment at issue, including a rate of US \$55 per day for demurrage on containers at destination upon the expiration of seven (7) days of free time (see Ex. A attached hereto); the identical demurrage rate of US \$55 per day was set forth on the face of the Combined Transport Bill of Lading that GRI completed and submitted to Hoyer for the transportation of the shipment at issue (see Exhibit 1 to GRI's Verified Complaint).

22. As NVOCC for the shipment at issue herein, Hoyer arranged carriage on board the M/V Northern Jasper with Hyundai Merchant Marine ("HMM"), a vessel operating common carrier, from Charleston to Busan.

23. The shipment was duly delivered to the wharf at Busan by Hoyer and HMM and made available to the consignee for pick up.

24. GRI and/or its customer(s) abandoned the cargo upon delivery to the wharf in Busan and made no attempts to remove the cargo for more than three years; in that time, Hoyer incurred extensive charges for port storage/wharfage in the amount of no less than \$244,865.13.

25. Hoyer has duly provided GRI with true and accurate copies of the invoices reflecting charges billed to Hoyer for all wharfage and/or port storage incurred for the shipment

that GRI and/or its customer abandoned on the Busan wharf (see documents attached as Exhibit B hereto).

26. GRI has made several representations that it would make payment to Hoyer for at least a portion of the significant wharfage charges Hoyer has incurred, but ultimately has delayed any payment, and its dilatory tactics have only continued with the commencement of this action.

27. In addition to its entitlement to reimbursement for the wharfage charges Hoyer has incurred in connection with the shipment abandoned by GRI and/or GRI's customer(s), Hoyer is entitled to demurrage on the shipping containers that were lost to service for more than three years due to the abandonment of the cargo, in the amount specified in the parties' written agreement and in the Combined Transport Bill of Lading that GRI completed and submitted to Hoyer for the transportation of the shipment at issue, totaling no less than \$504,240.

VII. PLACE OF HEARING

28. Respondent respectfully requests an oral hearing. Should the hearing be held, Respondent requests a hearing be held at the Federal Maritime Commission, 800 N. Capitol St., NW, Washington DC 20573-001.

AFFIRMATIVE DEFENSES

29. The Complaint herein must be dismissed for the failure of GRI to comply with all conditions precedent to the maintaining of proceedings before this Commission.

30. The allegations in the Verified Complaint lack a meritorious factual basis.

31. The Verified Complaint has not alleged the essential elements of a claim under 46 U.S.C. § 41102(c).

32. Hoyer's practices were neither unjust nor unreasonable.

33. The Verified Complaint fails to state a claim against Hoyer upon which relief can be granted; among other things, the Verified Complaint fails to allege facts showing that Hoyer is the proximate cause of and alleged injuries, and/or fails to allege facts showing that any challenged acts occurred on a normal, customary, and continuous basis so as to constitute an impermissible regulation or practice by Hoyer. The Complaint herein must be dismissed for the failure of GRI to state a claim for which this Commission can grant relief, and the matter must be remanded to the U.S. District Court of the Southern District of Texas.

34. Complainant has not suffered any damages proximately caused by Hoyer's alleged acts. Further, even if demurrage charges are imposed, the demurrage charges are reasonable.

35. In the alternative, and without waiver of any other defenses or affirmative defenses, and upon information and belief, Complainant has failed to mitigate its damages.

36. In the alternative, and without waiver of any other defenses or affirmative defenses, and upon information and belief, Complainant's damages, if any, were caused in whole or in part by Complainant's own conduct.

37. Complainant's injury, if any, was a result solely of its own errors and omissions, and/or the errors and omissions of its own customers, for whom Hoyer has no direct or vicarious responsibility, fault, or culpability.

38. Upon information and belief, Complainant's claims are barred in whole or in part by reason of ratification, agreement, or consent to the alleged conduct by Complainant and/or its members.

39. Upon information and belief, Complainant's claim is time barred and therefore is not entitled to recovery any reparations pursuant to 46 C.F.R. § 502.62(a)(4)(iii) because the alleged claim accrued on or about February 25, 2019.

40. The Complainant is not entitled to recover any special damages not plead. That includes, but is not limited to attorney's fees, costs, and expenses associated with this litigation.

41. This Commission lacks jurisdiction over the parties' dispute, which should properly be heard by the District Court.

42. Hoyer reserves the right to amend this Verified Answer to raise any additional defenses or affirmative defenses that may arise in the course of this proceeding.

WHEREFORE Respondent Hoyer Global (USA), Inc. respectfully demands:

1. Dismissal of this proceeding and remand to the U.S. District Court for the Southern District of Texas for full adjudication;
2. All costs and attorneys' fees incurred by Hoyer in connection with this proceeding.

Counsel for Complainant, Globerunners, Inc

/s/ John J. Sullivan

John J. Sullivan

Verification

John J Sullivan hereby declares under penalty of perjury of the laws of the United States of America as follows:

I am an attorney-at-law, admitted to the U.S. District Courts for Southern District of Texas, the District of New Jersey, and all four District Courts of the State of New York, as well as being admitted to the U.S. Courts of Appeal for the Second, Third and Eighth Circuits. I am the attorney representing Respondent herein, Hoyer Global (U.S.A.), Inc., and am the person who signed the foregoing Answer. I have read the Answer and that the facts stated therein, and based upon my discussions with and information provided by our client, upon my correspondence with Complainant and its counsel, upon my personal review of all relevant documentation at issue in this case, upon my own office's production of documents, and upon my review of said upon information received from others, I believe each averment to be true.

From: Michael Zachariades <Michael.Zachariades@hoyer-group.com>
Sent: Thursday, December 20, 2018 12:09 PM
To: Keith McLaughlin; Bookings Hoyer Global (USA) Inc.; Karen Wayne
Subject: RE: New Booking - Globerunners - Sanford, NC to Busan
Attachments: Petroleum-Asphaltenes-Pembina-NGL-Corporation.pdf

Hi Keith

I just a message...I need to be up front and advise that my technical department has advised a different cleaning process and I need to calculate a much higher cleaning rate for the Asphaltenes , as it is a high viscosity/sludge product. I need to adjust the rates as per below. I underatnd if this causing problems for you, but I need to make this adjustment.

Quote # 553979

Door Plymouth MN to Pier Pusan

\$ 4995

- Service ex-Chicago

Quote # 553980

Door Sanford NC to Pier Pusan

\$3405

- Service ex-Charleston SC

For Both :

- Commodity: Asphaltenes
- Equipment: 20' Standard ISO Tank Container
- Excludes prep
- Excludes DTHC
- Pre-demurrage Terms: 5 calendar days free before cut off day at

port/rail ramp of origin, thereafter USD \$35 per day

- Demurrage Terms: 7 calendar days free at destination from day of vessel

arrival at port/rail ramp of destination, thereafter USD \$55 per day

- Validity: June 30, 2019
- Rate subject to standard terms & conditions

- By booking with us you are accepting our rate offer

Regards,
Michael Z

Subject: New Booking - Globerunners - Sanford, NC to Busan

Hello,

Could you please make a new booking for 2 x 20' isotanks from Sanford, NC 27330 to Busan port.

Commodity is asphaltenes.

Looking to move these asap. Thanks!

Load address is below, will confirm actual load dates upon booking receipt with cut off information.

Noble Oil Services
5617 Clyde Rhyne Drive
Sanford, NC 27330

Synonyms: Not available.
Product Use: Intermediate.
Restrictions on Use: Not available.
Manufacturer/Supplier: Pembina NGL Corporation
3800, 525 – 8th Avenue SW
Calgary, AB, T2P 1G1
Emergency Phone: 1-800-360-4706
Date of Preparation of SDS: October 10, 2014

Section 2: HAZARD(S) IDENTIFICATION
GHS INFORMATION

Classification: Skin Irritation, Category 2
Eye Irritation, Category 2B
Carcinogenicity, Category 1B

LABEL ELEMENTS
Hazard
Pictogram(s):

Signal Word: Danger

Hazard Statements: Causes skin irritation.
Causes eye irritation.
May cause cancer.

Precautionary Statements

Prevention: Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Wash thoroughly after handling.
Wear protective gloves, protective clothing, eye protection and face protection.

Response: If on skin: Wash with plenty of soap and water.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If exposed or concerned: Get medical advice/attention.
If skin irritation occurs: Get medical advice/attention.
If eye irritation persists: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with applicable regional, national and local laws and regulations.

Hazards Not Otherwise Classified: Not applicable.

Ingredients with Unknown Toxicity: 100% of this product mixture consists of ingredient(s) of unknown acute toxicity.

This material is considered hazardous by the OSHA Hazard Communication Standard, (29 CFR 1910.1200).

Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous Ingredient(s)	Common name / Synonyms	CAS No.	% wt./wt.
C5 Asphaltene (n-Pentane Insolubles)	Not available.	91995-23-2	40 - 70
C5 Maltenes	Not available.	Not available.	15 - 40
Polycyclic Aromatic Hydrocarbons	Not available.	130498-29-2	variable

Section 4: FIRST-AID MEASURES

Inhalation:	If inhaled: Call a poison center or doctor if you feel unwell. Acute and delayed symptoms and effects: May cause respiratory irritation. Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.
Eye Contact:	If in eyes: Rinse cautiously with water for at least 30 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor. Acute and delayed symptoms and effects: Causes eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision. Hot liquid product may cause serious thermal burns on direct contact.
Skin Contact:	If on skin (or hair): Rinse skin with water/shower. Get immediate medical advice/attention. Remove non-adhering contaminated clothing. Cool adherent materials and burned areas with ice and/or cold water. Do not remove adherent material or clothing. Do not use solvents to remove product from the skin. Wash contaminated clothing before reuse. Acute and delayed symptoms and effects: Causes skin irritation. Signs/symptoms may include localized redness, swelling, and itching. Hot liquid product may cause serious thermal burns on direct contact.
Ingestion:	If swallowed: Rinse mouth. Immediately call a poison center or doctor. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Acute and delayed symptoms and effects: Hot product may cause thermal burns. Causes burns to nose, mouth, throat, and digestive tract. Signs/symptoms may include severe mouth, throat and abdominal pain, nausea, vomiting, and diarrhea, blood in the feces and/or vomitus may also be seen.
General Advice:	In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

Note to Physicians: Symptoms may not appear immediately.

Section 5: FIRE-FIGHTING MEASURES

FLAMMABILITY AND EXPLOSION INFORMATION

Not flammable or combustible by OSHA/WHMIS criteria.

Sensitivity to Mechanical Impact: This material is not sensitive to mechanical impact.

Sensitivity to Static Discharge: This material is not sensitive to static discharge.

MEANS OF EXTINCTION

Suitable Extinguishing Media: Small Fire: Dry chemical, CO₂, water spray or regular foam.

Large Fire: Water spray, fog or regular foam. Move containers from fire area if you can do it without risk.

Unsuitable Extinguishing Media: Do not spray water onto burning product as this may cause spattering and spreading of the flame.

Products of Combustion: Oxides of carbon. Oxides of sulphur. Oxides of nitrogen.

Protection of Firefighters: Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may cause pollution. Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection.

Section 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedures: Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Ventilate closed spaces before entering. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Personal Precautions: Do not touch or walk through spilled material. Use personal protection recommended in Section 8.

Environmental Precautions: Keep out of drains, sewers, ditches, and waterways.

Methods for Containment: Stop leak if without risk. Contain hot liquid by dyking and allow to cool and solidify. Do not flush to sewer or allow to enter waterways.

Methods for Clean-Up: Sweep up and shovel into suitable containers for disposal.

Other Information: See Section 13 for disposal considerations.

Section 7: HANDLING AND STORAGE

Handling:

Do not swallow. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash thoroughly after handling. Grounding of containers/pouring equipment is necessary when transferring hot liquid product. See Section 8 for information on Personal Protective Equipment.

Storage:

Store locked up. Store away from incompatible materials. See Section 10 for information on Incompatible Materials. Keep out of the reach of children.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION
Exposure Guidelines
Component

C5 Asphaltene (n-Pentane Insolubles) [CAS No. 91995-23-2]

ACGIH: 10 mg/m³ (TWA) (Inhalable.); 3 mg/m³ (TWA) (Respirable.); For Particles (Insoluble or Poorly Soluble) Not Otherwise Specified

OSHA: 15 mg/m³ (Total dust) (TWA), 5 mg/m³ (Respirable fraction) (TWA); For Particulates Not Otherwise Regulated (PNOR).

C5 Maltenes [CAS No. Not available.]

ACGIH: 10 mg/m³ (TWA) (Inhalable.); 3 mg/m³ (TWA) (Respirable.); For Particles (Insoluble or Poorly Soluble) Not Otherwise Specified

OSHA: 15 mg/m³ (Total dust) (TWA), 5 mg/m³ (Respirable fraction) (TWA); For Particulates Not Otherwise Regulated (PNOR).

Polycyclic Aromatic Hydrocarbons [CAS No. 130498-29-2]

ACGIH: A2; BEI; Exposure by all routes should be carefully controlled to levels as low as possible (1990); For Benz[a]anthracene

OSHA: 0.2 mg/m³ (TWA); For benzene-soluble fraction.

TWA: Time-Weighted Average

Engineering Controls:

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapour, gas, etc.) below recommended exposure limits.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Eye/Face Protection:

Wear chemical safety goggles. If product is hot, wear full face-shield. Ensure that eyewash stations are close to the workstation location. Use equipment for eye protection that meets the standards referenced by CSA Standard CAN/CSA-Z94.3-92 and OSHA regulations in 29 CFR 1910.133 for Personal Protective Equipment.

Hand Protection:

Wear protective gloves. If product is hot, thermally protective gloves are recommended. Consult manufacturer specifications for further information.

Skin and Body Protection:

Wear protective clothing. Clothing with full length sleeves and pants should be worn.

Respiratory Protection:

If engineering controls and ventilation are not sufficient to control exposure to below the allowable limits then an appropriate NIOSH/MSHA approved air-purifying respirator that meets the requirements of CSA Standard CAN/CSA-Z94.4-11, or self-contained breathing apparatus must be used. Supplied air breathing apparatus must be used when oxygen concentrations are low or if airborne concentrations

exceed the limits of the air-purifying respirators.

General Hygiene Considerations: Handle according to established industrial hygiene and safety practices. Consult a competent industrial hygienist to determine hazard potential and/or the PPE manufacturers to ensure adequate protection.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES
--

Appearance: High viscosity liquid / sludge.

Colour: Black.

Odour: Petroleum.

Odour Threshold: Not available.

Physical State: Liquid.

pH: Not available.

Melting Point / Freezing Point: Not available.

Initial Boiling Point: Not available.

Boiling Range: Not available.

Flash Point: Not available.

Evaporation Rate: Not available.

Flammability (solid, gas): Not applicable.

Lower Flammability Limit: Not available.

Upper Flammability Limit: Not available.

Vapor Pressure: Not available.

Vapor Density: Not available.

Relative Density: Not available.

Solubilities: Insoluble in water.

Partition Coefficient: n-Octanol/Water: Not available.

Auto-ignition Temperature: Not available.

Decomposition Temperature: Not available.

Viscosity: Not available.

Percent Volatile, wt. %: Not available.

VOC content, wt. %: Not available.

Density: Not available.
