Docket No. 16-17

MAR 20 2017

Connie Lane Christy

v.

Air 7 Seas Transport Logistics Inc.

Dear Judges:

I am writing to express my total frustration with the process that I am involved with.

Instructions from Judges, Mediators, and others with FMC have been contradictory and in total conflict with anything productive about this case.

The facts do not seem to matter. Pushing to mediate and minimizing the importance of this case has been consistent.

Maligning my proofs and my efforts to simply have my container released for delivery in Indonesia, when Air 7 Seas had it within their power to do so, is very frustrating. The fact that they will continue to do this to others with no actions against them, is very disconcerting.

I am withdrawing my suit against Air 7 Seas immediately. (I am sure that I am doing it wrong, and will be reprimanded to do something different)

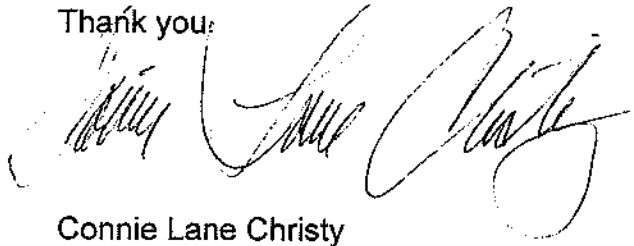

This suit has become a lynch squad to criticize my actions, instead of their intent to defraud me, and not fulfill their legal contract with me.

I am frustrated with FMC. As an organization that seeks to help the public work with their licensed shippers, you have fallen short in caring what really happened here. My fear is that Air 7 Seas continues to hurt others, and I have fallen short in doing my part to stop this. I just see no point in working on this anymore. Phillip Lee was the only person with FMC that actually cared about the truth. His help was appreciated. The rest of my interactions with FMC was full of people trying to cover their own actions and hide behind "lawyer speak" and allowing opposing counsel to berate me and somehow applaud them for "dealing with me". I deserve better from my own government and an agency that seems to be set forth in curtailing fraudulent activities by its licensed parties that ship, or involved in shipping goods. This whole case has been embarrassing as

an American citizen. Who are you protecting? Who are you serving? Obviously Air 7 Seas, but the rest is a fog.

Withdraw my petition to continue.

Thank you:
